

Photo 7.7: A group of shanties forms a homeless encampment along the crest of Radio Hill, seriously limiting the recreational uses of the area. Some informed community sources say that hobo camps are an historic use on the Hill.

Photo 7.8: Asphalt hiking trails have been developed all over Buena Vista Hill, but have become impassable due to years of deferred maintenance.

Photo 7.4: The original Park nursery has recently been renovated and is now used as a picnic area for large groups. Interestingly, the 1971 Elysian Park Master Plan was originally intended to be developed after park.

Photo 7.6: At the top of Radio Hill stands one of the City's radio broadcast towers.

Photo 7.5: Dramatic changes in landscape occur between the formal landscaped areas of the Fremont Gate lawn to the wild, rural environs of Buena Vista Hill. Improvements should be made to these areas to provide a series of more gradual changes that might encourage Park users to explore these areas.
