

COUNTY CLERK'S USE

CITY OF LOS ANGELES
OFFICE OF THE CITY CLERK
ROOM 395, CITY HALL
LOS ANGELES, CALIFORNIA 90012
CALIFORNIA ENVIRONMENTAL QUALITY ACT

NOTICE OF EXEMPTION

(Article III, Section 3, City CEQA Guidelines)

FORM RP 1-1-91

Submission of this form is optional. This form shall be filed with the County Clerk, 12400 East Imperial Highway, Norwalk, California 90650, pursuant to Public Resources Code Section 21152(b). Pursuant to Public Resources Code Section 21168(d), the filing of this notice starts a 35-day statute of limitation on Court challenges to the approval of the project. Failure to file this notice with the County Clerk results in the statute of limitation being extended to 180 days.

LEAD CITY AGENCY AND ADDRESS: City of Los Angeles Department of Recreation and Parks, 221 N. Figueroa Street, Suite 400, Los Angeles, CA 90012	COUNCIL DISTRICT: 08
PROJECT TITLE: MARTIN LUTHER KING JR PARK - Park improvements	LOG REFERENCE: PRJ21553, BR 23-048

PROJECT LOCATION: 3934 South Western Avenue, Los Angeles, CA, 90062

DESCRIPTION OF NATURE, PURPOSE, AND BENEFICIARIES OF PROJECT:

The proposed Project the replacement of playground safety surface, improvements and repairs of the Recreation Center and lighting and safety improvements.

Beneficiaries of the project are the patrons of the park.

MARTIN LUTHER KING JR PARK - Park improvements

CATEGORICAL EXEMPTION NARRATIVE

I. PROJECT DESCRIPTION

The proposed Project includes the following:

- Replacement of the playground safety surfacing.
- New LED Sport Field Lighting for the synthetic soccer field.
- Park pedestrian and security lighting improvements.
- Installation of additional security cameras throughout the park.
- Recreation center renovations including ADA improvements, flooring improvements, and kitchen upgrades.

The project is located at 3934 South Western Avenue, Los Angeles, CA, 90062, in the South Los Angeles Community Planning Area (Fig.1).

II. ENVIRONMENTAL REVIEW

Basis for Categorical Exemption

The proposed Project includes the following:

- Interior alterations involving minor construction where there be negligible or no expansion of use;
- Outdoor lighting for security and operations;
- Replacement of existing structures where the new structure will be located on the same site and have substantially the same purpose and capacity as the structure replaced;
- Installation of new equipment required for safety, health and the public convenience.

These activities are categorically exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to Article III, Section 1, Class 1(1), Class 1(12), Class 2 and Class 3(4) of City CEQA Guidelines and Article 19, Sections 15301(a), 15302, and 15303 of California CEQA Guidelines.

Consideration of Potential Exceptions to Use of a Categorical Exemption

The State CEQA Guidelines (CCR Sec 15300.2) limit the use of categorical exemptions in the following circumstances:

1. Location. Exemption Classes 3, 4, 5, 6, and 11 are qualified by consideration of where the project is to be located – a project that is ordinarily insignificant in its impact on the environment may be significant in a particularly sensitive environment. Therefore, these classes are considered to apply to all instances, except where the project may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies.

The proposed project falls under Class 1, 2, and 3, and could potentially constitute an exception to CEQA exemptions. The site resides in a liquefaction zone, but the proposed improvements will not expose the park patrons to increase risks of liquefaction. It is not located in a methane or coastal zone and will not impact on a recognized environmental resource of hazardous or critical concern, therefore, this exception has no application here.

2. Cumulative Impact. This exception applies when, although a particular project may not have a significant impact, the cumulative impact of successive projects of the same type in the same place, over time is significant.

The proposed project consists of improvements to an existing recreation center. No other known projects would involve cumulatively significant impacts, and no future projects would result from the proposed project. Therefore, this exception has no application here.

3. Significant Effect. This exception applies when, although the project may otherwise be exempt, there is a reasonable possibility that the project will have a significant effect due to unusual circumstances.

RAP is not aware of any unusual circumstances associated with this project. Therefore, this exception has no application here.

4. Scenic Highway. A categorical exemption shall not be used for a project that may result in damage to scenic resources, including but not limited to, trees, historic buildings, rock outcroppings, or similar resources, within a highway officially designated as a state scenic highway.

The proposed project is not within sight of any state designated scenic highway, nor of any other historic and scenic resource. Therefore, this exception has no application here.

5. Hazardous Waste Site. This exception applies when a project is located on a site listed as a hazardous waste site under Government Code Section 65962.5.

As of January 26/2023, the State Department of Toxic Substances Control (Envirostor at www.envirostor.dtsc.ca.gov) and the State Water Resources Control Board (Geotracker at <https://Geotracker.waterboards.ca.gov>) have not listed any site within the project area or in a 500 feet radius from the area. Therefore, this exception has no application here.

6. Historical Resources. This exception applies when a project may cause a substantial adverse change in the significance of a historical resource.

The proposed project area is not located in proximity of known historical, paleontological or archeological resources. The excavation required for the proposed Project will occur in already disturbed areas, and this office does not anticipate the disruption of archaeological or paleontological resources.

However, in case historical artifacts are encountered, City Engineer Standard Specifications, Section 6-3.2, (Greenbook, 2012) states: "If discovery is made of items of archaeological or paleontological interest, the Contractor shall immediately cease excavation in the area of discovery and shall not continue until ordered by the Engineer." Therefore, during activities in which there will be ground disturbances (i.e., digging, drilling, etc.) if any evidence of archaeological, cultural, or paleontological resources are found, all work within the vicinity of the find shall stop until a qualified archaeologist can assess the finds and make recommendations. No excavation of any finds should be attempted by Project personnel unless directed by a qualified archaeologist. Construction activities may continue in other areas. If the discovery proves significant under CEQA (Section 15064.5f; Public Resources Code or PRC 21082), additional work such as testing or data recovery may be warranted.

The discovery of human remains is always a possibility during ground disturbances; State of California Health and Safety Code Section 7050.5 states that no further disturbance shall occur until the Los Angeles County Coroner has made a determination of origin and disposition pursuant to PRC Section 5097.98. The Los Angeles County Coroner must be notified of the find immediately. If the human remains are determined to be prehistoric, the

Coroner will notify the Native American Heritage Commission, which will determine and notify a Most Likely Descendent (MLD). The MLD shall complete the inspection of the site within 48 hours of notification and may recommend scientific removal and nondestructive analysis of human remains and items associated with Native American burials.

Therefore, this exception has no application here.
