Board of Commissioners
PARK ADVISORY BOARD HISTORY

The Department of Recreation and Parks (RAP) observed the need for a formal method of incorporating community input on decisions affecting communities and initiated the development of Center Service Associations or CSA’s in the 1970’s. CSA’s led the way to the establishment and formalization of what we now recognize as Park Advisory Boards or PAB’s since May of 1998.

Park Advisory Boards (PAB) are essential to the overall operation of a recreation facility. The Department believes that the partnership between staff and the community is of primary importance in identifying and meeting the recreational needs of the community. A Park Advisory Board works to make facilities safe, clean, and hospitable while offering advice on programming and assistance in fundraising.

A Park Advisory Board member is a community stakeholder and understands the community’s needs and interests. Members work with the Department on issues involving neighborhood parks, community events, fundraising projects, existing and proposed recreation, and educational programs along with a variety of other issues important to your facility and to your community.
