PARTNERSHIP Section

*"Creating collaborative relationships
to build healthy communities"*

Overview

As the second largest city in the United States, the City of Los Angeles Department of Recreation and Parks (RAP) is the City's most comprehensive social service agency, providing affordable recreational and cultural programs and activities.

RAP manages all municipally owned and operated recreation and park facilities within the City. Some of the most famous icons in Los Angeles are managed by RAP - from the Griffith Observatory to the Venice Beach Boardwalk, from Pershing Square to the Exposition Park Rose Garden.

For over 125 years, we have brought people together to celebrate, to compete, to learn new skills, and to relax with family and friends in safe, welcoming parks and recreational facilities - providing high quality programs at low or no cost.

Partnership Section

RAP created the Partnership Section to enhance and expand existing programs, services and facilities for residents and visitors of Los Angeles by collaborating with outside organizations. Our goals are to:

- Enhance community resources.
- Increase recreation and park services to fulfill greater programming opportunities.
- Improve and support parks and facilities.
- Support the mutual needs of RAP and partnering organizations.

The Section collaborates with outside organizations, companies, foundations, and individuals which support RAP as:

- **Partners** supplementing or providing services to the public.
- **Sponsors** providing funding or services in exchange for recognition or other benefits.
- **Naming Recognition/Opportunities** for major donations in support of capital improvements, renovations, or programs subsidies.
