BOARD REPORTS

17-024
AS-NEEDED FENCE AND WALL INSTALLATION, MAINTENANCE AND/OR REPAIRS – AWARD OF CONTRACTS

Jim Newsom, Senior Management Analyst I of the Finance and Administrative Services Division, presented Board Report No. 17-024 for approval of proposed Services Contracts for as-needed fence and wall installation, maintenance and/or repair services with California Landscape & Design, Inc., Chris Kelley Inc. DBA Childs Play, Coast Iron Works, Crown Fence Co., DeFence Co., Izurieta Fence Company, Inc., Judge Netting, Inc., United Riggers & Erectors, Inc., and West Coast Netting, Inc.; approval of the finding, in accordance with Charter Section 1022, that the Department does not have available personnel in its employ with sufficient time or necessary expertise to undertake such services in a timely manner and it is therefore more feasible, economical, and in the Department’s best interest to secure such services by contract with several contractors on an as-needed basis without engaging in a new competitive bidding process for each individual project; approval of the finding, in accordance with Charter Section 371(e)(2) and Los Angeles Administrative Code Section
10.15(a)(2), that competitive bidding is not practicable or advantageous as it is necessary for the Department to be able to call on contractors to perform this expert technical work on an as-needed basis without engaging in a new competitive process for each individual project, and each individual project shall be assigned according to the availability of an as-needed contractor to perform the work, the price to be charged, and the unique expertise of the as-needed contractor; approval of the finding, in accordance with Charter Section 371 (e)(10), that the use of competitive bidding would be undesirable, impractical or impossible, or is otherwise is excused by the common law and the City Charter, because there is no single criterion such as price comparison that will determine which proposer can best provide the as-needed services required by the Department; and approval of the finding, in accordance with Charter Section 372, that obtaining competitive proposals or bids for each individual project is not reasonably practicable or compatible with the Department’s interests of having available as-needed contractors who are assigned various projects on the basis of availability, price, and expertise; therefore, it is necessary to have several as-needed contractors available for this type of service when called upon by the Department to perform such services.

The Summary of Board Report No. 17-024 was corrected on Page 5 to accurately reflect the time period in which the on-call contractors can rectify the waived informalities as follows:

1) Chris Kelley, DBA Child's Play has not checked all boxes on the Child Care Declaration Statement (pg.118). This form can be sent to Chris Kelley DBA Child's Play for completion of this form to be returned to the Board Office within 14 days calendar days of written notice.

By waiving the informalities for these two companies this would increase competition among contractors and would benefit RAP with competitive bids for the much needed critical services in maintaining and expanding our facilities in Chain-Link/Omega Fencing, Ornamental Fencing, Sports Netting/Fencing, and Masonry Walls. It is proposed that these responders have ten (10) business fourteen (14) calendar days to rectify these informalities once they have been informed by mail.

The Summary of Board Report No. 17-037 was corrected on Page 6 to accurately reflect the minimum participation level required to be performed by the Prime Contractor as follows:

It has been the policy of this Board to require that the prime contractor on construction projects perform a minimum of fifty percent (50%) of the work for the project, as measured by the base bid price. The purpose of the minimum participation level is largely to avoid contractors that serve merely as brokers and would therefore not have significant ability or expertise to keep projects on schedule and properly manage the construction and the work site. However, this project has a great deal of specialty work and therefore, the twenty percent (20%) fifty percent (50%) minimum participation level may exclude competent
general contractors from being able to meet the requirement. It is therefore proposed that the minimum prime participation level be reduced to twenty percent (20%) which should still achieve the goal of avoiding brokers as prime contractors, and at the same time not exclude competent general contractors. This should help attract a broader range of prime contractors, thus creating a more inviting and competitive bidding environment for this project.

Commissioner Sanford requested that Department staff report back to Facility Repair and Maintenance Task Force Meeting to discuss the tree species and parking lot design before any trees are planted at the Project site.

SUMMARY

On October 29, 2014, the City Council considered a Motion (Wesson – Huizar – LaBonge) that directed the Library Department (Library), Department of General Services (GSD), and RAP to consider the feasibility of splitting a portion of the parcel located at 694 South Oxford Avenue for the development of a pocket park. The motion was put forward due to the desire of the Wilshire/Koreatown community for more open space, green space, and landscaping in their community.

The parcel located at 694 South Oxford Avenue (Assessor’s Parcel No. 5093-006-900) is currently the site of the Library Department’s Pio Pico Koreatown Library and fronts along Serrano Avenue, 7th Street and Oxford Avenue. The Library property includes a parking lot, located to the rear fronting Oxford Avenue, designated for approximately fifty-five (55) parking spaces (See Exhibit A).

An estimated Ten Thousand Sixty Nine (10,069) City residents live within a one-half (½) mile walking distance of Pio Pico Library Park. Due to the facilities, features, programs, and services it will provide once complete, Pio Pico Library Park would meet the standard for a Neighborhood Park, as defined in the City’s Public Recreation Plan.

PROJECT SCOPE

As indicated in the Motion, the proposed project includes the future design and development of pocket park on the portion of the parcel that contains the parking lot. With the Board’s approval, Department staff will begin discussions with Library Department staff for the development of a Memorandum of Agreement with the Library Department to allow for the use of said portion for the proposed pocket park.

PROJECT FUNDING

Upon approval of this Report, One Million One Hundred Thousand Dollars ($1,100,000.00) in Quimby Fee Interest from the Quimby Fees Interest Account No. 89460K-01 can be transferred to the Pio Pico Library Park Account No. 89460K-B3 and allocated to Pio Pico Library Park – Park Development (PRJ20934) Project. Additionally, Two Million Nine Hundred Eighty Thousand Four Hundred Eighty Two Dollars ($2,980,482.00) in Quimby Fees can be transferred to the Pio Pico Library Park Account No. 89460K-B3 and allocated to Pio Pico Library Park – Park Development (PRJ20934) Project.

The total funding available for the Pio Pico Library Park – Park Development (PRJ20934) Project would be Four Million Eighty Thousand Four Hundred Eighty Two Dollars ($4,080,482.00).

Pursuant to Los Angeles Municipal Code Section 12.33 J.2, interest accrued on Quimby in-lieu fees may be applied outside the project development for which the original fees were collected, provided that RAP holds a public hearing prior to committing the interest, and uses the interest to develop new or rehabilitate existing parks or recreational facilities within the City. The Quimby
Fees were collected within two (2) miles of Pio Pico Library Park, which is the standard distance for the allocation of the Quimby Fees to neighborhood recreational facilities pursuant to Los Angeles Municipal Code Section 12.33 E.3.

**PROJECT CONSTRUCTION**

Staff has determined that sufficient funding has not yet been identified for the Pio Pico Library Park – Park Development (PRJ20934) Project. However, staff recommends that the available funding be transferred to the Pio Pico Library Park Account No. 89460K-B3, and allocated to Pio Pico Library Park – Park Development (PRJ20934) Project, and that those funds remain in that account until the complete project scope has been determined and sufficient funds have been identified to begin project implementation.

It is unknown at this time when construction of this project can commence.

**TREES AND SHADE**

The impact on existing trees or shade at Pio Pico Library Park, and discussion of any new trees or new shade are proposed to be added to Pio Pico Library Park, will presented to the Board in a subsequent report.

**ENVIRONMENTAL IMPACT STATEMENT:**

Staff has determined that CEQA will be addressed when the complete project scope has been determined and sufficient funds have been identified to begin the project.

**FISCAL IMPACT STATEMENT**

The approval of this allocation of Quimby Fees will have no fiscal impact on the RAP's General Fund.

The estimated costs for the design, development, and construction of the proposed park improvements are anticipated to be funded by Quimby Fees or funding sources other than the RAP's General fund.

The maintenance of the proposed park improvements can be performed by current staff with no overall impact to existing maintenance services.
This Report was prepared by Cid Macaraeg, Senior Management Analyst II and Darryl Ford, Senior Management Analyst I, Planning, Construction and Maintenance Branch, Department of Recreation and Parks.
MOTION

For decades, activists within the Wilshire/Koreatown region have been advocating for more open space, green space and landscape. Following directly behind New York City, Koreatown is the second densest population within the United States, housing over 55,000 residents within a 6.2 mile radius. Council District 10 is one of the most park poor, if not, the most park poor district situated within the City of Los Angeles and is in desperate need of more parks and open space. As a result, we would like to review the possibility of splitting the parcel located at 694 South Oxford Ave, Los Angeles, CA 90005 (APN 5093-006-900) to make room for a pocket park.

Currently, the parcel is home to the Pico Pico – Koreatown branch of the Los Angeles Public Library and fronts along Serrano Avenue, 7th Street and Oxford Avenue. To the rear of the library, fronting Oxford Avenue, lies a parking lot designated for approximately 55 parking spaces, 3 of which are designated for handicapped parking. We would also like to explore the feasibility of angled parking along both Serrano Avenue and Oxford Avenue to compensate for the lost parking spaces in the event that the lot is split and turned into a pocket park.

I THEREFORE MOVE that Council, subject to the approval of the Mayor, take the following actions:

A) Request the Library Commission and Recreation and Parks Commission to explore the feasibility of a lot split and transfer of jurisdiction to the Department of Recreation and Parks;

B) Direct the Department of General Services (GSD) with the coordination of the City Administrative Officer (CAO) to take all necessary steps and prepare all required documents to effectuate a potential lot split for APN 5093-006-900;

C) Instruct the Chief Legislative Analyst (CLA) with the coordination of the Library and Parks Commission and Department of Transportation (DOT) to take all necessary steps and prepare all required documents to initiate a transfer of jurisdiction from GSD to the Department of Recreation and Parks

D) Instruct the City Administrative Officer (CAO) with the coordination of GSD, Department of Recreation and Parks, City Attorney and CLA to take all necessary steps and prepare all required documents to effectuate the potential lot split and transfer of jurisdiction of APN 5093-006-900 to the Department of Recreation and Parks;

E) Instruct Department of Transportation (DOT) to examine the viability of angled parking along both Serrano Avenue and Oxford Avenue.

SUMMARY

Chatsworth Park South is located at 22360 Devonshire Street in the Chatsworth area of the City. This 73.07 acre park provides a variety of services and amenities to the community, including a recreation center, play area, and outdoor open space. Additionally, the Minnie Hill Palmer House / Homestead Acre, City of Los Angeles Historic-Cultural Monument #113, is located at this site. Approximately Six Hundred Seventy Four (674) residents live within a one-half (½) mile walking distance of Chatsworth Park South. Due to the facilities, features, programs, and services it provides, Central Recreation Center meets the standard for a Community Park, as defined in the City’s Public Recreation Plan.
PROJECT SCOPE

On February 14, 2008, Chatsworth Park South was closed to the public due to suspected lead and other contaminants from a former skeet and trap firing range that was part of the park property prior to the acquisition by the RAP in 1966. On June 5, 2013, the Board of Recreation and Park Commissioners (Board) approved the Chatsworth Park South Remedial Action Plan (Report No. 13-155). On July 9, 2014, the Board approved the final engineering design plans for the capping alternative of the Chatsworth Park South Remedial Action Plan (Report No. 14-192). On November 19, 2014, the Board approved the revised final plans and specifications for the Chatsworth Park South-Rehabilitation Project (PRJ20361) (W.O. #E170331F) (Report No. 14-286). On June 18, 2015, the Board of Recreation and Park Commissioners awarded Contract No. 3528 to American Integrated Services, Inc. The scope of work for the Chatsworth Park South – Rehabilitation (PRJ20361) (W.O.#E170331F) Project is the remediation of the lead contamination and redevelopment of the park and recreational amenities on approximately 21 acre remediation area of the park. The remediation includes the demolition of the existing hardscapes and irrigation systems; grubbing of the existing terrain and removal of tree stumps; removal of lead pellets and surface soil within one (1) inch to three (3) inches of existing terrain by vacuum and handpicking in the rocky outcropping of the remedial area; and grading and construction of a one (1) foot engineered remedial cap, four (4) detention basins, and interconnecting bio-swales; construction of outdoor park improvements including decomposed granite walking paths, metal barrier gates, concrete curbs, asphalt paving, drinking fountains; relocation of security camera pole; removal and replacement of wood deck bridge; relocation of traffic signage; parking lot improvements; perimeter fencing; and landscaping and irrigation.

RAP’s staff had determined that additional project contingency funding for the Chatsworth Park South – Rehabilitation (PRJ20361) (W.O.#E170331F) Project may be necessary.

RAP’s staff estimates the necessary additional contingency funding will be approximately Five Hundred Thousand Dollars ($500,000.00).

PROJECT FUNDING

Upon approval of this report, Five Hundred Thousand Dollars ($500,000.00) in Quimby Fee Interest from the Quimby Fees Interest Account No. 89460K-01 can be transferred to the Chatsworth Park South Account No. 89460K-CT and allocated to Chatsworth Park South – Rehabilitation (PRJ20361) Project.

The total funding available for the Chatsworth Park South – Rehabilitation (PRJ20361) Project would be Nine Million Seventy-One Thousand Eight Hundred Eighty-Three Dollars ($9,071,883.00).
Pursuant to Los Angeles Municipal Code Section 12.33 J.2, interest accrued on Quimby in-lieu fees may be applied outside the project development for which the original fees were collected, provided that RAP holds a public hearing prior to committing the interest, and uses the interest to develop new or rehabilitate existing parks or recreational facilities within the City.
