Approved  X  Disapproved  Withdrawn

RECOMMENDATIONS

1. Grant final approval for the installation of a memorial plaque at Griffith Park, as described in the Summary of this Report and as depicted in Exhibit A of this Report (Project);

2. Determine that the Project is exempt from the provisions of the California Environmental Quality Act (CEQA), pursuant to Article III, Section 1, Class 11(1), of City CEQA Guidelines as well as to Article 19, Section 15311(a) of California CEQA Guidelines;

3. Authorize the Department of Recreation and Parks’ (RAP) Chief Accounting Employee to prepare a check to the Los Angeles County Clerk in the amount of $75.00 for the purpose of filing a Notice of Exemption; and,

4. Authorize RAP to issue the appropriate Right of Entry Permit for the installation of the Project.

SUMMARY

Griffith Park is a regional park located within the Hollywood community. Griffith Park contains unique amenities such as the Griffith Park Observatory, Pony Rides, Shane’s Inspiration Playground, Ferraro Fields, Greek Theatre, multiple golf courses, numerous hiking trails and much more. RAP has received a request from the Griffith J Griffith Charitable Trust (Trust) to install a memorial plaque commemorating the people who lost their lives in the 1933 Canyon
Brush Fire. The Trust will provide funding, via the Los Angeles Parks Foundation, for the manufacture and installation of the proposed plaque.

During the Great Depression a number of Angelinos were employed using relief funds paid by a local bond measure. Some of those employed were men working in Griffith Park doing such work as trail maintenance, brush clearance and road construction. On October 3, 1933, a fire was spotted near today’s Boy’s Camp and a number of workers, carrying shovels and wet sacks, hiked down to combat what appeared to be a small blaze. A hot and dry wind blew up and the fire grew rapidly, trapping and killing twenty-nine people. This fire, known as the Griffith Park Canyon Fire, is one of the deadliest wildfires in California history.

The Trust has proposed the installation of a marker commemorating this tragic event. This marker is intended to both act as a memorial to those who lost their lives battling the fire as well as inform and educate park visitors regarding the unique fire ecology and danger in Griffith Park. The plaque will be placed along the North Trail near Amir’s Gardens under the supervision of Griffith Park staff. The plaque will be 24” x 36” black powder coated aluminum with a matte finish and installed on a double cantilever pedestal with a 10” image as depicted in Exhibit A. A dedication event recognizing the plaque installation is anticipated for October 2019.

This proposal has been presented to, and received support from, the Griffith Park Advisory Board and the Friends of Griffith Park. Letters of support from these organizations as well as from the Trust are attached hereto as Exhibit B.

This proposal was presented to the Facilities Repair and Maintenance Task Force (Task Force) on July 17, 2019, at which time the Task Force recommended the proposal be forwarded to the Board of Recreation and Park Commissioners (Board) for consideration.

RAP management and staff support this proposal.

**TREES AND SHADE**

No trees, nor shade, will be impacted by the installation of the proposed plaque.

**ENVIRONMENTAL IMPACT**

This proposed Project consists of the installation of on premise signs in an existing park. As such, staff recommends that the Board determines that it is exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to Article III, Section 1, Class 11(1), of City CEQA Guidelines as well as to Article 19, Section 15311(a) of California CEQA Guidelines. A Notice of Exemption will be filed with the Los Angeles County Clerk upon Board’s approval.

**FISCAL IMPACT**

The cost of the plaque manufacture and installation will be paid by the Griffith J Griffith Charitable Trust. There will be minimal impact for ongoing maintenance of the plaque.
STRATEGIC PLAN INITIATIVES AND GOALS

**Goal No. 5:** Ensure an Environmentally Sustainable Park System

**Outcome No. 4:** Increased opportunities for environmental education.

**Result:** An installation which honors those Angelinos who perished fighting the fire in Griffith Park, and provides an educational tool regarding the fire ecology of Griffith Park, supports the goal of providing opportunities for environmental education.

This Report was prepared by Melinda Gejer, City Planning Associate, Planning, Maintenance and Construction Branch.

**LIST OF ATTACHMENTS/EXHIBITS**

A) Plaque Rendering  
B) Letters of Support
The cause of the fire was never determined.

In California history, official death toll counted 28 lives lost in one of the deadliest wildfires. By nightfall, the wind had subsided and the fire was brought under control. The winds, which had been expected up the trail were not as strong. The winds were able to run downhill were still. Those who attempted up the trail were unprepared men who were helpless to stop the rapidly growing blaze. Workers who were equipped men were able to run downhill were safe. Those who attempted up the trail were unprepared men who were helpless to stop the rapidly growing blaze. Workers who were equipped men were able to run downhill were safe.

The day was hot - 100 degrees at noon. Around 2pm a fire was spotted near Griffith Park. A local bond measure was passed to fund relief programs. Griffith Park's large number of employees was mobilized to work.

In the early years of the Great Depression, Los Angeles battled joblessness by borrowing money through the Reconstruction Finance Corporation. A local bond measure was passed to fund relief programs. Griffith Park's large number of employees was mobilized to work.

To: The Board of Recreation and Park Commissioners

Re: Griffith Park Advisory Board’s Support for Proposed Plaque Commemorating the Victims of 1933 Fire

Dear Board of Commissioners:

This letter is to apprise you of our Board’s unanimous support for the placement of a plaque commemorating the victims of the Griffith Park fire of 1933, as proposed and to be funded by the Griffith J. Griffith Trust.

This memorial to the 29 volunteers who fell victim to the fire, representing the largest loss of life to fire in Los Angeles history, is to be placed at the site of the fire -- atop a small canyon south-west of the current Griffith Park Camp area.

Though the memorial remains a work in progress, our Board has reviewed a draft of the text and has seen an example of its proposed design, and we’re very confident the memorial’s final version will be both appropriate and elegant. And that the presence of this memorial will well contribute to the cultural and historical aspects of our park, and to the enhanced enjoyment of our visitors.

Sincerely,

Ron Deutsch
Chair – Griffith Park Advisory Board
Board of Recreation and Park Commissioners

Re: Griffith Park 1933 Fire Memorial - Support

Dear President Patsaouras and Commissioners:

Friends of Griffith Park supports the installation of a memorial marker for the victims of the 1933 Griffith Park fire that is proposed by the Griffith J. Griffith Trust.

The 1933 fire is the deadliest fire in the history of the City of Los Angeles. Depression-era relief crews were working on trail maintenance when the fire broke out and attempted to fight the fire with their shovels. The relentless Santa Ana winds drove the fire uphill killing 29 hard working men.

It is fitting and proper that the victims of the fire should be recognized. The Trust has designed a marker that will give the history of the fire and list the names of those who died that fateful October day. The memorial will not only recognize their sacrifice, but will also serve as a reminder to all who pass by of the ever-present danger of fire in Griffith Park.

Friends of Griffith Park greatly appreciates the effort of the Griffith J. Griffith Trust to honor the men who died trying to protect the Park.

Sincerely,

Marian Dodge
President
Board of Commissioners
Los Angeles Department of Recreation and Parks

Dear Commissioners,

We, the members of the Griffith J. Griffith Trust, urge the Los Angeles Department of Recreation and Parks Commissioners to approve interpretive signage commemorating the Griffith Park fire of Oct. 3, 1933 and the county relief workers who died fighting it. The fire was the deadliest in the city’s history. It serves as a cautionary tale about the danger posed by even relatively small brush fires and the need for well-trained and well-equipped personnel to fight them. The interpretive signage will also stand as a memorial to the 29 men who died protecting Griffith Park.

Respectfully,

Dr. Mike Eberts
Claire Darden
Van Griffith
