General Manager

Approved _______ X _______ Disapproved _______ Withdrawn _______

With Amendments

RECOMMENDATIONS:

1. Designate all twelve (12) City of Los Angeles golf courses (including course parking lots and turf management lots) as Special Use Facilities For Filming, as outlined in the Summary of this Report;

2. Approve the proposed changes to the Schedule of Rates and Fees for Film Permit Fees and Golf Film Permit Fees (Attachment A and Attachment B) as outlined in the Summary of this Report, effective March 1, 2019; and

3. Authorize staff to amend the Schedule of Rates and Fees to incorporate the aforementioned changes.

SUMMARY:

The Department of Recreation and Parks (RAP) Golf Division maintains and operates seven (7) 18-hole golf courses, three (3) 9-hole golf courses, two (2) 9-hole pitch and putt golf courses and a junior golf academy. City employees perform all maintenance, starter, and electric cart fleet management on each golf facility. The Golf Division also self-operates all five (5) of its driving ranges. All salary expenses, indirect costs, utilities, supplies, contract services, and capital improvements are funded through revenue generated by the golf facilities. In addition to covering operational expenses, it is essential that the Golf Division generate additional revenue to maintain and improve the City's golf assets. Currently, the Golf Division is in the midst of implementing the recommendations put forth in the Strategic Plan developed by Global Golf Advisors in December 2015.

Staff is seeking approval to designate all twelve (12) City golf courses as special use facilities for filming, including the golf parking lots and golf turf management lots. Tregnan Golf Academy has already been designated as a special use facility for filming.
Currently, over eighty (80) days of filming take place on the City’s golf facilities annually. Each of the City’s golf facilities has unique characteristics that are desirable for filming purposes, with the Wilson and Harding golf courses in Griffith Park being the most in demand. Golf staff has specialized knowledge in planning and monitoring filming such that the golf course is not harmed in the filming process. In addition, oftentimes filming interferes with golf and as a result impacts revenue. By designating the golf courses as special use facilities for filming and implementing a film fee structure, the golf facilities will be made whole, and possibly generate additional revenue. This is consistent with recommendation XI of the Golf Strategic Plan to leverage the golf courses to generate non-golf related revenue. As special use facilities, the golf courses will continue to follow all policies and procedures set forth by Film LA and the Park Film Office.

Currently, 40% of all golf related film permit fees are deposited into RAP’s General Fund, amounting to approximately $19,000 in 2017. By designating the City’s golf courses as special use facilities as recommended in this Report, 100% of revenue generated from golf film permit fees would be deposited into Golf Operations Special Fund 52H, Department 89. All expenses related to golf film permits, including film monitoring, will be paid from Golf Operations Special Fund 52H, Department 89.

**FISCAL IMPACT STATEMENT:**

40% of fees generated from film permits that were deposited into the RAP General Fund will now be deposited to Golf Operations Special Fund 52H, with an estimated reduction in RAP’s General Fund revenue of $19,000 annually.

Report prepared by Laura Bauernfeind, Golf Manager, Golf Division.

**LIST OF ATTACHMENTS/EXHIBITS**

1) Attachment A: Film Permit Fees
2) Attachment B: Golf Film Permit Fees
FILM PERMIT FEES
(Revised 06/01/2017 03/01/2019)

Pool filling or operation Quoted on request, based on actual cost
Utility (each for electricity, gas, or water) $75/day, per utility

100% to Surcharge Account 913
FILM PERMIT FEES – (continued)

NOTES:
All applicable fees paid to Film LA except as expressly noted. Any donations intended for any
Department facility will be accepted by the Park Film Office only and credited to the appropriate facility.
All scouts and monitors to be on-duty employees of the Department of Recreation and Parks. Monitor
fees and all other applicable fees will be estimated in advance of filming and collected with all other film
permit fees collected by Film LA. Monitoring or other charges beyond estimates will be billed by EIDC
Film LA. Monies for monitor fees will be transferred to Recreation and Parks with other park filming
charges. Scouting is no charge if the scouting is scheduled with a Department Film Monitor or someone
designated by the Park Film Office, for which service the Monitor fee may be used to reimburse the
Department.

All special use facilities listed above may be subject to assignment of a technically competent or specially
trained person from the facilities’ staff, rather than a monitor from the general Department monitor pool.
For the purpose of special monitor assignments only, certain other facilities may require special staff as
monitor, e.g., lifeguards must be assigned to any filming in or near a filled Department pool or other body
of water.

All fees and charges at any facility or property in the Department must be expressly specified in the Rates
and Fees manual. No exceptions. At the discretion of the General Manager, Film LA may approach the
Department about a percentage of prep and strike fees on extremely long location situations.

The overnight inspection spot check fee may, at the discretion of the Park Film Office, be used in
conjunction with private security personnel guarding sets not under prep, strike, or active filming, or for
low impact productions, but only where no conflict about use of the area exists.

Special use facilities fees are set by the facility and typically are split so that the facility benefits. At these
facilities only, monitors will come exclusively from the pool of facility employees and are included as
needed in the facility base charge. If additional security or monitoring services are needed because of the
scope of the activity, they will be charged through Film LA as are other monitors. The Park Film Office
administration fee for special use facilities reimburse the cost of facilitating their use as filming locations.

GENERAL FILM PERMIT POLICIES AND REGULATIONS

A. REQUIREMENTS FOR PERMIT:

1. A film permit is required to make any commercial still photograph, commercial motion
picture, television program, commercial or similar production at a City park or
recreational facility.

2. The film permit requirement is not intended to apply to news departments routinely
engaged in the preparation of stories for news programs.

3. Public affairs and quasi-news programs may be exempted from the permit requirement
upon request and referral of Film LA.

4. Commercial still photography is defined as photography for advertising purposes or any
paid publication in use.
FILM PERMIT FEES – (continued)

5. Permits are required for educational, public service, non-profit, and student projects (must show proof of enrollment), however, these projects may be eligible for fee exemptions (see Section B).

6. No filming permit is required for screen tests or casting sessions, but a Department Special use permit may be required if special privileges or exclusive use is requested.

7. Use of Department property leased to concessionaires or other outside entities may require separate arrangements and additional fees determined by the leasing entity.

8. The Department asks that credit be given to Department facilities and locations in motion picture or photography credits.

B. FEE EXEMPTIONS

1. Students may receive an exemption on daily charges for filming, prepping, striking, and parking. Students must submit a letter, written on letterhead of a recognized United States educational institution, and signed by a school administrator or instructor, stating that the applicant is currently enrolled in that institution and that the film is not for commercial purposes. Student films are not eligible for waiving or reduction of monitoring requirements and fees if any one or more of the following elements are present:

   • Filming longer than five days
   • Any construction will take place
   • Catering trucks are required to service cast and/or crew
   • Unusual activity such as helicopter use or road closures

2. Non-profit organizations are eligible for the exemption on daily charges for filming, prepping, striking, and crew parking.

   a. Organizations must provide proof that they have tax exempt status in accordance with section 501 c (3) (1) of the Internal Revenue Code or Section 23701 (d) of the California Revenue and Taxation Code to qualify.

   b. Production companies producing projects for bona fide non-profit organizations may qualify for the fee reduction if the non-profit organization involved provides proof of tax exempt status as required by Section B.2a.above, and if the non-profit organization states in writing that the production company involved has been retained by them to produce the project and any fees reduced by the City will result in a direct equivalent reduction in costs to the non-profit organization.

   c. Local television stations producing public service announcements shall be considered non-profit for the purpose of obtaining fee reductions. The request must be made in writing and be signed by an official of the station. This applies only to those filming permits requested for the public service announcements.
3. Government agencies – Agencies of the federal government or any state, county, city, district or other political subdivision are eligible for fee exemptions. Government agencies must apply for this in writing on agency letterhead and have the form signed by an official of the agency.

4. Entities producing programming for broadcast over public access channels of cable television systems franchised within the City of Los Angeles may also be eligible for fee reductions. Producers of this type of programming must submit a request in writing and agree to pay the City all fees if the production is used for commercial purposes. Such requests must be verified in writing by an official of the cable system which will broadcast the production.

5. PAY PARKING LOTS, SPECIAL USE FACILITY FEES, SERVICE FEES, AND MONITOR FEES CANNOT BE REDUCED OR WAIVED.
GOLF FILM PERMIT FEES
(04/01/2019)

See FILM PERMIT FEES page for GENERAL FILM PERMIT POLICIES AND REGULATIONS, which includes REQUIREMENTS FOR PERMIT and FEE EXEMPTIONS.

The following provisions apply only when filming on Golf Special Use Facilities:

GENERAL DEPARTMENT FEES:
100% to Golf Special Fund 52H, Account 89G401

- Motion picture filming $450/day ** (includes holding location prepped locations except those specified as below and ready to film)
- Prep $150/day
- Strike $150/day
- Base Camp Only $450
- News No charge
- Crew Parking (1-15 vehicles) $100/day
- Crew Parking (16 + vehicles) $300/day
- Special Facility Administration Fee $150/production
- Non-refundable Application Deposit $150/production

** Any impact on revenue will be additional. When filming impacts golf play and revenue, all fees will be due 48 hours before the reservation window available to the public.

Camera test or testing of equipment/props on park property as it relates to filming will be considered on a case by case basis with still photography fees applying respectively.
