RECOMMENDATION

Accept the work performed for the Oakridge Estate - Park, Walking Trails and Children's Play Area (W.O. #E170184F) (Prop K ID #C231-8) Project (Project), constructed by the Department of Recreation and Parks (RAP) as-needed prequalified on-call contractors, as outlined in the Summary of this Report.

SUMMARY:

The Oakridge Estate - Park, Walking Trails and Children's Play Area (W.O. #E170184F) (Prop K ID #C231-8) Project is located in Council District 12 at 18650 Devonshire Street, Northridge, CA, 91324. The scope of work included the development of a community park, walking trails and children's playground area within the grounds of the estate. In addition, there were site grading, irrigation, stage area, driveway apron, landscaping, hydro-seeding, installation of park furniture, and installation of an outdoor classroom.

The plans for the Project were prepared by the Department of Public Works, Bureau of Engineering (BOE), Architectural Division. On April 19, 2017, the Board of Recreation and Park Commissioners (Board) approved the final plans for construction of the Project (Board Report No. 17-100) (Attachment No. 1). On July 6, 2017, RAP issued a Notice-to-Proceed (NTP) to Evergreen Environmental, Inc. (Pre-qualified On Call Contractor) for an amount of One Million Ninety-Two Thousand and Five Hundred Dollars ($1,092,500).

BOE was involved in the project management, construction management and inspection of the project.
The construction of Project was completed on January 7, 2019. During the course of construction, a total of seven (7) change orders were issued to the Vendor. The list of change orders is included as Attachment No. 2 of this Report for reference. The breakdown of the total construction cost is as follows:

<table>

<td>$160,549.67</td>
<td>14.7%</td>
<td>$1,253,049.67</td>
</tr>
</tbody>
</table>

**TREES AND SHADE**

There are numerous old growth Oak trees on the site which were protected in place during construction. A total of one hundred and twenty-five (125) trees were planted as part of this Project. The tree plantings were primarily focused on shading the picnic areas, children’s play area, and walking paths. The trees were also used as a landscape buffer between the park and the residential area to the south of the Project site, as requested by the community and Council office. The tree palate consists of Toyon, Goldenrain, Flax Leaf Paper Bark, Italian Stone Pine, Valley Oak and Interior Live Oak. All trees that were planted are drought tolerant and resistant to the Polyphagous Shot Hole Borer, which has been infecting trees in Southern California. The Toyon and Oak trees are native to California.

The BOE Program Manager has reviewed the as-built drawings and concurs that Project has been completed in accordance with the plans and specifications. There was no contract compliance or labor issues with the work done.

**FISCAL IMPACT STATEMENT**

The construction and indirect costs for the Project were funded entirely with Proposition K - L.A. for Kids funds.

Maintenance funds for the new park will be requested as part of the annual City budget process. This budget includes part time staff, materials and supplies and will provide year round maintenance seven days a week.

This Report was prepared by Richard Campbell, Project Manager, BOE Architectural Division. Reviewed by Neil Drucker, BOE Architectural Division, Interim Division Manager, and Cathie Santo Domingo, RAP Superintendent, Planning, Maintenance and Construction Branch.

RECOMMENDATIONS

1. Approve the final plans, herein included as Attachment 1, for the Oakridge Estate – Park, Walking Trails and Children’s Play Area (W.O. #E170184F) Project (Project);

2. Find that the proposed Project is categorically exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to Article III, Section 1, Class 3(6), Class 4(1, 3) and Class 11(3) of City Guidelines (construction of accessory structures including play areas, grading on land with a slope less than 10%, tree planting, gardening and landscaping and construction of walks and fences accessory to existing facilities);

3. Direct Department of Recreation and Parks' (RAP) staff to file the Notice of Exemption within five (5) working days of project approval; and,

4. Authorize the RAP Chief Accounting Employee to prepare a check to the Los Angeles County Clerk in the amount of Seventy-Five Dollars ($75.00) for the purpose of filing a Notice of Exemption.
SUMMARY

The Project is located at 18650 Devonshire Street, Northridge, California 91324, which is part of the estate previously owned by actress Barbara Stanwyck and, later, comedian Jack Oakie. The Project submitted for approval herein consists of the development of a community park, walking trails and children's play area within the grounds of the estate. Site grading, irrigation, staging area, driveway apron, landscaping, hydro-seeding, park furniture, and an outdoor classroom are also part of the Project scope. Once the Project is complete, the new community park will serve the Reseda, Northridge and Chatsworth communities, all located within the Twelfth Council District (CD 12) and nearby to the Project site. This is a Proposition K – L.A. for Kid’s Program (Prop K) 8th Cycle Competitive Grant project.

As required by Proposition K, three Local Volunteer Neighborhood Oversight Committee (LVNOC) meetings were conducted on September 19, 2013; November 7, 2013; and December 12, 2013; respectively, with participation from the community. The LVNOC and CD 12 Office are in full support of the Project.

The Department of Public Works, Bureau of Engineering (BOE) Architectural Division prepared the plans and specifications, and obtained all the necessary approvals for the Project. BOE will also be providing the construction management services on the construction of these improvements. The City Engineer's estimate for the construction work is Eight Hundred Sixty Thousand Dollars ($860,000.00).

It should be noted that a master plan to renovate the existing historic residence, at the Oakridge Estate is being developed with different funding sources and will be designed and constructed separately.

In March 2015, the Proposition K Steering Committee awarded construction funds to the Department of Recreation and Parks (RAP). The Project will be bid to RAP’s list of pre-qualified on-call contractors.

Funding for this Project is available from the following funds and accounts:

TREES AND SHADE:

One hundred one (101) trees will be planted as part of this Project, and will primarily focus on shading the picnic areas, children's play area, and walking path. The trees will also be used as a landscape buffer between the residential area to the south of the Project site. The tree palate consists of Toyon, Goldenrain, Flax Leaf Paper Bark, Italian Stone Pine, Valley Oak and Interior Live Oak. All trees being planted are drought tolerant and resistant to the Polyphagous Shot Hole Borer which has been infecting trees in Southern California. The Toyon and Oak trees are native
to California. It should be noted that no trees will be removed, and that the Project will comply with RAP's Tree Protection Policy.

ENVIRONMENTAL IMPACT STATEMENT

The proposed Project consists of construction of new accessory (appurtenant) structures including fences, play equipment, retaining walls, drinking fountains, restrooms, and walks, of minor grading and of tree planting and landscaping. Therefore, RAP staff recommends that the Board of Recreation and Park Commissioners (Board) determine that it is categorically exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to Article III, Section 1, Class 3(6), Class 4(1, 3), and Class 11(3) of the City CEQA Guidelines. A Notice of Exemption will be filed with the Los Angeles County Clerk upon approval by the Board.

FISCAL IMPACT STATEMENT

There is no immediate fiscal impact to RAP's General Fund at this time.

This Report was prepared by Rebecca Abano, Project Manager, BOE, Architectural Division, and reviewed by Neil Drucker, Program Manager, Mahmood Karimzadeh, Architectural Division Manager; Deborah Weintraub, BOE, Chief Deputy City Engineer; and Cathie Santo Domingo, Superintendent, Planning, Maintenance and Construction Branch.
