SUMMARY

The Los Angeles Dodgers Foundation (LADF) has been a long-time supporter of RAP for many years, and has been instrumental in garnering additional support from various funding sources through their business relationships and affiliations, such as with Major League Baseball (MLB), providing RAP with much needed capital funding for facility improvements and monetary contributions in support of RAP recreation programs.

LADF, with funding provided by MLB, has committed to fund ball field improvements valued at up to Eight Hundred Fifteen Thousand Dollars ($815,000.00) for the LADF Project at Lincoln Park Recreation Center, located at 3501 Valley Boulevard, Los Angeles 90031.

Since 2003, with the very first Dreamfield being developed at Algin Sutton Recreation Center, LADF has created 26 Dreamfields at 22 RAP park sites. In total and including developments at Los Angeles County and neighboring city parks, LADF has successfully completed their goal of developing at least fifty (50) Dreamfields in the greater Los Angeles area. The creation of two (2) new Dreamfields at Lincoln Park will take the total to 28 Dreamfields at 23 RAP Parks.

The proposed Project and proposed gift agreement (Agreement) will provide the community with two enhanced ballfields which will not only improve the experience for players using the fields, but will also contribute to community's pride in itself and the park. The proposed Agreement memorializes the terms and conditions for the installation of the field improvements pursuant to plans and specifications approved by the Planning, Maintenance, and Construction Branch (PMC), and the Board’s acceptance of the completed improvements as a Gift to the City of Los Angeles. A Site Map and the Scope of Work for the Project is included in the Agreement as Exhibits A and B, respectively. Also included in the Agreement as Exhibit C, are renderings of the proposed scoreboard design and recognition signage to be displayed at the fields, to recognize and acknowledge the monetary contributions provided by MLB, in accordance with the RAP Sponsorship Recognition Policy. RAP staff recommends that the Board approve the proposed recognition signage for the location. The proposed recognition signage also indicates possible placement of additional sponsor recognition in the future. This has been added for reference purposes only to indicate where additional sponsor recognition may be located on the signage in the future if additional sponsor recognition is requested by LADF. If LADF requests the addition of additional sponsors for recognition in the future, staff will return to the Board for approval of the additional recognition at that time with renderings of the additional sponsor recognition and the placement of the additional recognition on the existing signage. Any other
proposed modifications to the recognition signage from what is set forth in Exhibit C of the Agreement shall also require prior approval by RAP staff and the Board before implementation.

The scope of work for the LADF Project consists of various field improvements such as, but not limited to, soil and turf treatment, grading, soil amendments and compaction, irrigation, sod installation, infield mix, batter’s box and pitching area clay, infield fixtures and conditioner, backstop padding, dugouts, bleachers, drive gates, and drinking fountain, as more fully described for the project in the Agreement. RAP will perform field lighting enhancements as part of the RAP Project through available Park Fees funding at Lincoln Park Recreation Center, subject to the Board’s approval under this Report. Two lighting poles will be added for the larger field, and the smaller field which is currently not lit will have a complete lighting system installed.

The LADF Project will be managed by Landmark Construction Solutions, Inc. (Landmark), LADF’s selected contractor, and performed by their contractors under the authority of a right of entry permit (ROE) issued by PMC to Landmark. These LADF improvements will be performed in coordination with PMC staff. RAP will oversee the performance of the RAP Project, which will be performed by one or more existing, on-call contractors already under contract with RAP.

In order to have the Project completed in time for the MLB All-Star game on July 14, 2020, Project work must begin by mid-February 2020. Field dedications are tentatively scheduled for July 2020.

Lincoln Park Recreation Center – Sports Field Lighting (PRJ21342) Project (RAP Project)

Lincoln Park is located at 3501 Valley Boulevard in the Lincoln Heights community of the City. This 42.81-acre park provides a lake, a recreation center, picnic areas, play areas, tennis courts, and a swimming pool for the surrounding community. Approximately Nine Thousand Four Hundred Twenty-Eight (9,428) City residents live within a one half (1/2) mile walking distance of Lincoln Park. Due to the facilities, features, programs, and services it provides, Lincoln Park meets the standard for a Community Park, as defined in the City’s Public Recreation Plan.

Project Scope
The RAP Project includes upgrades to existing sports field lighting and installation of new sports field lighting.

Project Funding
Upon approval of this Report, Five Hundred Fifty Thousand Dollars ($550,000.00) in Park Fees can be committed to the RAP Project.

These Park Fees were collected within five (5) miles of Lincoln Park Recreation Center, which is the standard distance for the commitment of the Park Fees for community recreational facilities pursuant to Los Angeles Municipal Code Section 12.33 E.3.

Project Construction
RAP Staff has determined that sufficient funding has been identified and construction of the RAP Project is anticipated to begin in February 2020.

TREES AND SHADE

The approval of this proposed Project will include the removal of three (3) small Magnolia trees at Lincoln Park Recreation Center, one of which is dead. RAP shall replace the removed trees with six (6) new 24” box tree plantings, the type, size, quantity, and location to be determined by RAP’s Forestry Division.

ENVIRONMENTAL IMPACT

The proposed Project consists of the LADF Project and the RAP Project, which includes the refurbishment of two existing baseball fields, installation of new lighting, grading of the existing turf and field and placement of new signs as well as placement of accessory structures. As such, staff recommends the Board determines that the Project is exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to Article III, Section 1, Class 1(1), Class 1(12), Class 4(1), Class 11(1) and Class 11(6) of City CEQA Guidelines, as well as Article 19, Section 15301(a), 15304(a) and 15311(a) of California CEQA Guidelines. An NOE will be filed with the Los Angeles County Clerk upon Board approval.

FISCAL IMPACT STATEMENT

The LADF Project will be funded by Major League Baseball through LADF. The RAP Project is being funded through available Park Fees funding. Future maintenance costs for the fields will continue under the existing maintenance budget allocation for both facilities, as the improvements consist of enhancements and upgrades to existing ball field facilities. Should additional maintenance funding be deemed necessary in the future, it’s anticipated that any requested increase through the City budget process would be nominal. If specified maintenance funds for the improved fields are not allocated through the budget process, the improvements will be included in the existing Metro Region maintenance route for the park.

The approval of the proposed Agreement and the commitment of Park Fees will have no fiscal impact on RAP’s General Fund. The estimated costs for the design, development, and construction of the proposed park improvements are anticipated to be funded by Park Fees or
funding sources other than RAP's General Fund. The maintenance of the proposed park improvements can be performed by current staff with minimal impact to existing maintenance service at this facility.

STRATEGIC PLAN INITIATIVES AND GOALS

Approval of this Board Report advances RAP’s Strategic Plan by supporting:

**Goal No. 1:** Provide Safe and Accessible Parks

**Outcome No. 2:** All parks are safe and welcoming

**Result:** The upgrade to existing lighting and installation of new sports field lighting will enhance the park users’ experience.

This report was prepared by Joel Alvarez, Senior Management Analyst II, and Raymond Chang, Management Analyst, Partnership Section.
