Good evening Sarah,

Still waiting on a response from our Councilman's office we had great help from our park rangers that were going clear the parking lot and make our neighborhood safe again and then you came and met with us and told us you stopped it because they didn't do it the right way. And now we need our Councilman's office to do there job and keep us safe so please do something to keep us safe before someone gets hurt. Thanks Fernando.

Hi Sarah,

Thank you for the response, we have those numbers memorized and we always call to report "dangerous" encounters.

At this point, we can only keep submitting our grievances in writing for future documentation. I'm sure the non-emergency line has records of all CALLS but better to document as we go. As one of our dear friends mentioned before, if one of us ends up getting hurt by these homeless addicts, we won't hesitate to sue the city.

We have noticed more and more tents are being set up at the parking lot. Remember when we begged you for help last year? We asked you to seek services for those homeless, only 4 tents then, and to get them permanent housing. We were seeing an increase in crime around the park, and on our street, EVEN THEN. You knew about the pellet shelter housing motion and you blatantly lied to us by telling us this was only a "temporary" location because of the PANDEMIC. OVER AN OVER you said, "they can't be relocated during a pandemic". The worst thing is we believed you!

Simply housing these homeless is not the answer, they need much more: mental health and substance abuse services. Councilmember Kevin de Leon has not reached out to the residents and business owners of Eagle Rock. He does not know all of our opinions, nor has he taken into account our concerns. I know a lot of neighbors throughout ER who have emailed him/called him, but he never responds. He doesn't live in ER and he is lying to himself if he thinks his "A Way Home" plan will be successful long term.

I hope no one else overdoses at the parking lot, the count is now up to four.

Flor

Council member K. De Leon and staff,

The specific homeless guy living under the fwy, in Matthew's pictures, is always on drugs. I'm thankful to Matthew for documenting this because  
At least 4 families on our street have been harassed by this homeless guy, more than once. We personally call the non-emergency # daily, to report him--probably for nothing but we still do.  
Are you saying the LA-HOP/any other homeless services have not assessed him yet? He has been under the fwy overpass for weeks now because the homeless at the parking lot kicked him out. He really needs to be provided with help before he hurts someone. Please let us know what you find out.

I'm going to repeat myself but the **white suburban with no plates** continues to deal drugs. Like clockwork- he drops off the drugs at the parking lot and in broad daylight. Please follow the Facebook Eagle Rock Crime Watch Group, many ER neighbors, including myself, post about this specific dealer and other crime activities. The homeless at this encampment are all addicts and that is a fact.

Here is the FB link:

<https://m.facebook.com/groups/139849053546643/permalink/817336342464574/>

Sarah, can you get in touch with Officer Ochoa and figure out a plan here? What can be done about the dealer?

FACTS:

A. Driving without a license plate for over a year = ILLEGAL

- B. Distributing illicit drugs/intent to sell = ILLEGAL
- C. Consuming illicit drugs in public = ILLEGAL
- D. Disorderly conduct due to drug addiction = ILLEGAL
- E. Drug addicts breaking laws and having used syringes around our schools, parks, residents = DANGEROUS
- F. Residents, Families, Business Owners Safety= NON-EXISTENT

Sincerely,  
Flor & Neighbors

Hi all,

I know this is all pointless, since the city has done all of nothing for us (other than hinder our efforts) after a year of pleading. So this is just documentation in case someone gets hurt by this guy, so they can sue the city.

He is under the overpass nearest to us, and has been doing very odd things like screaming in his tent, wandering in the street, and changing or urinating on the sidewalk. Yes, we've called the police plenty of times in the past. I've personally stopped, since the police have their hands tied unless someone actually gets hurt.

The below picture is from today. You can see his head poking out of the tent as he is **screaming obscenities at my wife and daughter** while they walk to the park. He did this for about 2 minutes, as they went corner to corner.

- If you're wondering why i'm taking a picture of him through my windshield at the time, it's because he did the same thing yesterday, and they were too terrified to go without me at least driving behind them.

Keep up the good work, city people who are paid for by our tax dollars!

I have attached a picture of the public city district 1 boundaries around Debs Park according to [gilcedillo.com](http://gilcedillo.com). I also included a second map image of CD14. Both maps reveal how much of the park lies within CD1 & CD14.

>

You are joking, right, Bill?

I literally just looked at the districting overlay maps and there are 2 tiny slices in 14, the rest is in 1...unless I'm looking at old maps, perhaps you could send me a link to a current view if I'm incorrect? And why Ms. Cruz would lie right to my face when anyone with a computer can check this information is beyond laughable. The park entrances have nothing to do with who is responsible for the bulk of Debs, as much as you might wish it so.

I don't appreciate you trying (at this late date) to shift responsibility for this cluster-f to another district when it is patently obvious that CD 1 is NOT interested in getting anything done to save Debs before it is too late. Up until literally a week or so ago, there was no mention of CD14 at all from you, and now (when we stakeholders are strenuously demanding action) it has become a co-parenting issue.

You can bet that we will be at the redistricting meetings (btw, community peeps there is a meeting on the 14<sup>th</sup> of august for CD1 as well as the meeting on the 21<sup>st</sup> for CD 14) and my personal voice will be raised to say 14 should have ALL of the park.

**Subject:** Re: Redistricting of Debs Park

The park is split almost 50/50. I spoke with members of the Park Advisory Board about this and it is probably something to discuss at the Community meeting. Why CD14 would suggest they don't have 50 percent when they do seems to have started under the past administration.

I suggest you take a look at the map, where the entrances to the park are, (most are in CD14, although the one up to the Audubon is in CD1.

At any rate. We are going to be addressing this with CD14 very soon and hopefully they will be more willing to help since the park is almost evenly split between the Districts.

Bill

wrote:

Hi all--

I just got off the phone after a good chat with Cynthia Cruz who is the constituent services deputy for Kevin De Leon's (CD 14) Eagle Rock field office. She was enthusiastic about keeping Debs safe, but as the main bulk of the park is in CD 1, CD 14 direct input is nearly non-existent. However, she did let me know that there is a public meeting happening on Aug. 21 regarding redistricting in LA and urged me to spread the information to stakeholders.

As a member of CD 14 herself, she suggested that taking a look at the "property lines" of the park in this process might be helpful to maintaining Debs in the future. She indicated that personally, she would be excited to have the entirety of Debs included in 14, but obviously, it's really up to us, the constituents, and there are many permutations possible.

I have attached the flyer here so that anyone who wishes to attend can sign up. Please consider attending...it's a Zoomie, so you don't even have to put on pants.

Hi all--

Wanted to update you with the news that I have spoken with both Debs Park Ranger Larry Khou and Senior Park Ranger Frank Berhans (sp?) within the last 24 hours specifically regarding the Machete Man and destruction of habitat in Debs.

Apparently, they are now actively trying to locate this person and his sidekick but because the rangers go out later in the morning have been unable to find Messrs. Mass Destruction. I was able to give them specific info regarding the location & times these people tend to be out, which is a lot earlier (6:45-8 a.m. give or take) than they usually patrol so we'll just have to see how this plays out.

In addition, I did receive information from Ranger Khou that last week's fire did originate in the camp behind Debs/convalescent home and is essentially burned out with no one there (at least at his last patrol). There is supposedly a park-wide clean up scheduled for next week, but I have no further clarification on when specifically or what we might expect going forward with maintenance and squatting in the park.

Thus concludes today's Debs Park update. I commend both rangers for calling, asking pertinent questions and listening carefully to me. I do understand this is a massive undertaking with many plates spinning in the air.

Sandy.

HI Bill

Can you please respond to the recent emails from the community? Also, we will need the phone numbers of these rangers. Apparently they are either unable or unwilling to respond to emails.

I sure hope these rangers were not part of the "big reveal". In fact, we are still waiting on this *exciting news* that will help deal with the problem of these fire hazards that the city is legally obligated to mitigate.

Hello all--

Today's Debs Park update features our famous Crazy Machete Man who, for the last 3 days, has been chopping down walnut and oak trees at Hobbit Camp...I say 3 days because that is all I have recently witnessed but this has been ongoing for months. I have attached a video of him chopping LIVE wood there yesterday. Today, he again ran at myself and friends when he saw us observing him, and we had no choice but to retreat and call 911. I know there was a police response, but I don't know the outcome.

In addition, this particular area (the white tree trunk Hobbit Camp) has been AGAIN significantly "yardened"...trees physically cut and root balls disturbed with digging done to at least a dozen trees as well as native plants destroyed uprooted and destroyed. I attempted to call the Rangers, but since I was given a fax number instead of an actual phone line, I had to call 311 who connected me with Ranger dispatch who told me no one was "available" to assess this situation.

I don't know how many times this needs to be said, but everyone in the park/surrounding neighborhood is not only at

risk from fire (smoke from campfires is thick every morning) but psychos with machetes are roaming freely, literally threatening every single person on that trail section. I say "psychos" plural, as Crazy Machete Guy has a pal with a shovel that makes sporadic appearances in a supporting role.

Personally, I am done pleading. I expect to hear back from someone, ANYone, that there is action being taken by the end of this week. I talk to many stakeholders on my daily hikes and no one is willing to wait any longer for bureaucratic wheels to turn on this horrifically dangerous situation. Do what we hired you to do.

Sandy.

Hello all—

While I appreciate Mr. Cody’s prompt “response” to Ms. White’s letter concerning (yet another) fire in Debs, what I do not appreciate is the blah-blah-blah nature of the response itself. ANOTHER “community meeting”? This can take a long “time to institute”? Seriously? We need to have you guys roll out better platitudes because these are grizzled and exhausted.

I have personally been hiking in Debs for nearly 25 years, and during that ENTIRE time fires and homeless squatting have been of concern. Twenty-five years. Perhaps you who are supposed to be our city leaders can indicate how long we should continue to wait...perhaps another 25 years? Maybe only 10? If only I had a more solidified time line, maybe I could stop sending these never-ending updates...although, I’m assuming they are not being read anyway.

But, setting aside the direct issue with a fire IN the park yesterday, I am sending more photos of yesterday’s personal excitement at the park.

The first 2 show Crazy Machete Guy who I surprised in the middle of his chopping LIVE vegetation from a walnut tree...you know, the protected California Black Walnut trees? The pics suck because once he knew he was being observed/photographed, he came uphill at me to scream & wave his machete so I was planning my escape while trying to take pics.

The last 2 photos were taken yesterday (early evening after the fire) of just one of the vehicles associated with the Griffin side encampments: it is a roof-tarring rig. As you can clearly see, it was actively being used as there is a wheelbarrow and shoveling equipment just behind it (it was parked just at “Excavation Camp” so one might infer that it is being used to remake the cozy subterranean snug there). I don’t know if the debris on the ground is charcoal or tar, but the “HOT” sticker on the tailgate clearly indicates it is NOT anything that should be carried into an ultra-high fire zone area. This vehicle (along with most of the vehicles being allowed to permanently park on Griffin) is not being used for actual living so it does not meet the current criteria of homeless occupancy. It should be immediately ticketed and/or towed, as well as the rest of the cars that are in violation of the clearly marked parking regulations. Why is the city not using this “encouragement” on appropriate vehicles?

I believe it is time to stop asking all you City Folk about what you are going to do with this mess and demand immediate and thorough action. Time and luck are running out here.

Sandy.

Hi Pae,

We were looking over the situation as it happened this afternoon and I absolutely understand your concerns. I do know we are working on some concrete long term solutions although it may feel like nothing is happening because it can take time to institute these actions.

We will be setting up another community meeting in the next week or so and will give you an update at that time.

Despite our numerous emails, pleas, maps, walkabouts and more pleas, emails, phone calls etc - we had a fast spreading fire in our neighborhood an hour ago - our neighborhood which is a **DESIGNATED VHFHSZ**. This fire happened directly behind Broad View Nursing Home where numerous encampments are situated. Had this unfortunate event injured or cost the lives of any of the nursing home residents I promise you, this neighborhood would share every drop of ignored communication and impotent follow-thru. Our records are thorough and extensive.

I would also imagine that the news of dead senior citizens (in a VHFHSZ) due to the city's negligence, would not play out so favorably in the international press, which is exactly where it would be covered.

I'm with Sandy here. Enough lip service. Let's get this show on the road. We are a VERY HIGH FIRE SEVERITY HAZARD ZONE. Does that not make sense? This means we are more vulnerable than many others in this city. How is it that Huntington Drive in El Sereno, Echo Park and Beverly Blvd have managed a clean up and they are not even close to being a VHFHSZ????

Also - I know there were false claims of activists blocking your efforts. Did any of them appear for the ineffective clean-up a few months ago?

COME ON!!!! This is ridiculous.

Hi all,

Was just up at Debs with Marcos from the Audubon Center and Maravic, the new Executive Director at Broadmore along with the Team Rubicon group. They are fire mitigation experts and they are working with direction from Marcos on fire mitigation efforts after last week's incident.

One thing they will need soon is some additional clean-up and I will take LACC up there on a Saturday to work on that. Would the community be interested on a Community Clean-up? We could have a quick meeting before to go over new components of addressing the issues up at Debs. There is help on the way. I know you want to know more specifics but I can't really go into everything at this time. I wish I could. But if we have a meeting up there in maybe - a week and half which would be Saturday the 14th, I should be able to tell you a lot more.

Let me know what you think.

Good afternoon,

Thank you for contacting the Board of Recreation and Park Commissioners Office, your email will be forwarded to the Commissioners.

If you have any further questions or comments please respond to this email.

Hi all--

Wanted to update you with the news that I have spoken with both Debs Park Ranger Larry Khou and Senior Park Ranger Frank Berhans (sp?) within the last 24 hours specifically regarding the Machete Man and destruction of habitat in Debs.

Apparently, they are now actively trying to locate this person and his sidekick but because the rangers go out later in the morning have been unable to find Messrs. Mass Destruction. I was able to give them specific info regarding the location & times these people tend to be out, which is a lot earlier (6:45-8 a.m. give or take) than they usually patrol so we'll just have to see how this plays out.

In addition, I did receive information from Ranger Khou that last week's fire did originate in the camp behind Debs/convalescent home and is essentially burned out with no one there (at least at his last patrol). There is supposedly a park-wide clean up scheduled for next week, but I have no further clarification on when specifically or what we might expect going forward with maintenance and squatting in the park.

Thus concludes today's Debs Park update. I commend both rangers for calling, asking pertinent questions and listening carefully to me. I do understand this is a massive undertaking with many plates spinning in the air.

Sandy.

HI Bill

Can you please respond to the recent emails from the community? Also, we will need the phone numbers of these rangers. Apparently they are either unable or unwilling to respond to emails.

I sure hope these rangers were not part of the "big reveal". In fact, we are still waiting on this *exciting news* that will help deal with the problem of these fire hazards that the city is legally obligated to mitigate.

Hello all--

Today's Debs Park update features our famous Crazy Machete Man who, for the last 3 days, has been chopping down walnut and oak trees at Hobbit Camp...I say 3 days because that is all I have recently witnessed but this has been ongoing for months. I have attached a video of him chopping LIVE wood there yesterday. Today, he again ran at myself and friends when he saw us observing him, and we had no choice but to retreat and call 911. I know there was a police response, but I don't know the outcome.

In addition, this particular area (the white tree trunk Hobbit Camp) has been AGAIN significantly "yardened"...trees physically cut and root balls disturbed with digging done to at least a dozen trees as well as native plants destroyed uprooted and destroyed. I attempted to call the Rangers, but since I was given a fax number instead of an actual phone line, I had to call 311 who connected me with Ranger dispatch who told me no one was "available" to assess this situation.

I don't know how many times this needs to be said, but everyone in the park/surrounding neighborhood is not only at

risk from fire (smoke from campfires is thick every morning) but psychos with machetes are roaming freely, literally threatening every single person on that trail section. I say "psychos" plural, as Crazy Machete Guy has a pal with a shovel that makes sporadic appearances in a supporting role.

Personally, I am done pleading. I expect to hear back from someone, ANYone, that there is action being taken by the end of this week. I talk to many stakeholders on my daily hikes and no one is willing to wait any longer for bureaucratic wheels to turn on this horrifically dangerous situation. Do what we hired you to do.

Sandy.

Despite our numerous emails, pleas, maps, walkabouts and more pleas, emails, phone calls etc - we had a fast spreading fire in our neighborhood an hour ago - our neighborhood which is a **DESIGNATED VHFHSZ**. This fire happened directly behind Broad View Nursing Home where numerous encampments are situated. Had this unfortunate event injured or cost the lives of any of the nursing home residents I promise you, this neighborhood would share every drop of ignored communication and impotent follow-thru. Our records are thorough and extensive.

I would also imagine that the news of dead senior citizens (in a VHFHSZ) due to the city's negligence, would not play out so favorably in the international press, which is exactly where it would be covered.

Hi Pae,

We were looking over the situation as it happened this afternoon and I absolutely understand your concerns. I do know we are working on some concrete long term solutions although it may feel like nothing is happening because it can take time to institute these actions.

We will be setting up another community meeting in the next week or so and will give you an update at that time.

You are joking, right, Bill?

I literally just looked at the districting overlay maps and there are 2 tiny slices in 14, the rest is in 1...unless I'm looking at old maps, perhaps you could send me a link to a current view if I'm incorrect? And why Ms. Cruz would lie right to my face when anyone with a computer can check this information is beyond laughable. The park entrances have nothing to do with who is responsible for the bulk of Debs, as much as you might wish it so.

I don't appreciate you trying (at this late date) to shift responsibility for this cluster-f to another district when it is patently obvious that CD 1 is NOT interested in getting anything done to save Debs before it is too late. Up until literally a week or so ago, there was no mention of CD14 at all from you, and now (when we stakeholders are strenuously demanding action) it has become a co-parenting issue.

You can bet that we will be at the redistricting meetings (btw, community peeps there is a meeting on the 14<sup>th</sup> of august for CD1 as well as the meeting on the 21<sup>st</sup> for CD 14) and my personal voice will be raised to say 14 should have ALL of the park.

The park is split almost 50/50. I spoke with members of the Park Advisory Board about this and it is probably something to discuss at the Community meeting. Why CD14 would suggest they don't have 50 percent when they do seems to have started under the past administration.

I suggest you take a look at the map, where the entrances to the park are, (most are in CD14, although the one up to the Audubon is in CD1.

At any rate. We are going to be addressing this with CD14 very soon and hopefully they will be more willing to help since the park is almost evenly split between the Districts.

Hi all--

I just got off the phone after a good chat with Cynthia Cruz who is the constituent services deputy for Kevin De Leon's (CD 14) Eagle Rock field office. She was enthusiastic about keeping Debs safe, but as the main bulk of the park is in CD 1, CD 14 direct input is nearly non-existent. However, she did let me know that there is a public meeting happening on Aug. 21 regarding redistricting in LA and urged me to spread the information to stakeholders.

As a member of CD 14 herself, she suggested that taking a look at the "property lines" of the park in this process might be helpful to maintaining Debs in the future. She indicated that personally, she would be excited to have the entirety of Debs included in 14, but obviously, it's really up to us, the constituents, and there are many permutations possible.

I have attached the flyer here so that anyone who wishes to attend can sign up. Please consider attending...it's a Zoomie, so you don't even have to put on pants.

Hi All,

Attached please find an updated map of camps in Debs Park, mostly accessed from the north gate on Griffin/Avenue 52. There are camps in other parts of the parks, but these are the ones we see on a daily basis.

Please note the locations and be sure to check out the comments, as things are always changing.

In this era of a year-round fire season, we need to ensure that our wildlife parks are protected, especially Debs, which is home to the Audubon Urban Nature Center, 150 species of birds, and the largest Native Black Walnut Woodland in Los Angeles. As you no doubt aware, this is a VERY HIGH FIRE HAZARD SEVERITY ZONE, meaning all of this could disappear in an instant.

Thank you,

Tom + Pae

**A DESIGNATED VERY HIGH FIRE HAZARD SEVERITY ZONE (VHFHSZ)**  
**August 8, 2021**

**CAMP A:** This camp is well concealed and high up in Debs Park. Shocking to see a **hibachi** out in the open. **CLEARED**, but with remaining debris.

CAMP A – May 23, 2021

CAMP A – August 8, 2021

**CAMP B:** An extremely well concealed camp with extensive construction. Practically a functioning house. Visible from above: **STILL ACTIVE – Smoke seen June 6, 2021**

**CAMP B – May 23, 2021**

**CAMP B – June 5, 2021**

**CAMP B – August 8, 2021 – STILL ACTIVE:** Hammering was occurring when this photo was taken.

**CAMP C:** An extremely dangerous camp at the end of the peninsula. **Open Flame Cooking** set-up directly below branches of a dead tree. **UNDETERMINED**

**CAMP C – June 5, 2021**

**CAMP C – June 5, 2021**

**CAMP D:** Camp embedded in dry trees about 20 feet below Camp C. – **Seems abandoned**

**CAMP D – June 5, 2021**

**CAMP E:** No images available of this camp. Very active and well established. Many animals including a rooster, a dog and cats and kittens.

**CAMP F:** This camp is extremely well established and large. Has a very well-trodden pathway leading up to it. Is in very dense thicket of trees. Has a **Weber Grill** sitting on a piece of Plywood. **STILL ACTIVE**

**CAMP F – May 23, 2021**

**CAMP F – JUNE 5, 2021**

**CAMP G:** Established and active camp involving grading and retaining walls. Near Audubon Center. **STILL ACTIVE – Man with Machete has been cutting a swath through the area, hacking Protected Native Plants to create his lair. Has threatened park visitors.**

**CAMP G – May 23, 2021**

**CAMP G – JUNE 5, 2021**

**CAMP H:** Established and Active camp with doors and a yard. Has a rooster. Near Audubon Center. **STILL ACTIVE; possibly associated with Camp G**

**CAMP H – May 23, 2021**

**CAMP H – June 5, 2021**

**CAMP I:** An absolute metropolis of illegal encampments all along Griffin/Avenue 52. Some of these camps are between Griffin/Avenue 52 and the Arroyo Seco Channel – a sliver of land that is part of Arroyo Seco Park, NOT the Army Corps of Engineers or CalTrans – and some of the camps IN Debs Park have been **cleared** but **debris** and **holes in the fence** remain.

**CAMP I – May 23, 2021**

**CAMP I – May 23, 2021**

**CAMP I – May 23, 2021**

**CAMP I – May 23, 2021**

**CAMP J – August 8, 2021 – A previously unknown camp between fire roads. Hard to access but has debris fallen onto the lower fire road.**

**CAMP J – August 8, 2021 – STATUS UNCLEAR**

**ALL of these camps are in a designated VERY HIGH FIRE HAZARD SEVERITY ZONE.**

**A RECENT FIRE in DEBS – as photographed, June 5, 2021, there have been others since then, including one between the Audubon Urban Nature Center and the Broadview Retirement Community.**

On Jul 30, 2021, at 9:21 PM, Bill Cody <bill.cody@lacity.org> wrote:

Hi Pae,

We were looking over the situation as it happened this afternoon and I absolutely understand your concerns. I do know we are working on some concrete long term solutions although it may feel like nothing is happening because it can take time to institute these actions.

We will be setting up another community meeting in the next week or so and will give you an update at that time.

Bill

To: CD1 and the elected officials who have been tasked with keeping our community safe

Despite our numerous emails, pleas, maps, walkabouts and more pleas, emails, phone calls etc - we had a fast spreading fire in our neighborhood an hour ago - our neighborhood which is a **DESIGNATED VHFHSZ**. This fire happened directly behind Broad View Nursing Home where numerous encampments are situated. Had this unfortunate event injured or cost the lives of any of the nursing home residents I promise you, this neighborhood would share every drop of ignored communication and impotent follow-thru. Our records are thorough and extensive.

I would also imagine that the news of dead senior citizens (in a VHFHSZ) due to the city's negligence, would not play out so favorably in the international press, which is exactly where it would be covered.

**Subject:** Re: Redistricting of Debs Park

The park is split almost 50/50. I spoke with members of the Park Advisory Board about this and it is probably something to discuss at the Community meeting. Why CD14 would suggest they don't have 50 percent when they do seems to have started under the past administration.

I suggest you take a look at the map, where the entrances to the park are, (most are in CD14, although the one up to the Audubon is in CD1.

At any rate. We are going to be addressing this with CD14 very soon and hopefully they will be more willing to help since the park is almost evenly split between the Districts.

Hi all--

I just got off the phone after a good chat with Cynthia Cruz who is the constituent services deputy for Kevin De Leon's (CD 14) Eagle Rock field office. She was enthusiastic about keeping Debs safe, but as the main bulk of the park is in CD 1, CD 14 direct input is nearly non-existent. However, she did let me know that there is a public meeting happening on Aug. 21 regarding redistricting in LA and urged me to spread the information to stakeholders.

As a member of CD 14 herself, she suggested that taking a look at the "property lines" of the park in this process might be helpful to maintaining Debs in the future. She indicated that personally, she would be excited to have the entirety of Debs included in 14, but obviously, it's really up to us, the constituents, and there are many permutations possible.

I have attached the flyer here so that anyone who wishes to attend can sign up. Please

consider attending...it's a Zoomie, so you don't even have to put on pants.

In case anyone is interested in the reality of how the districts actually overlay Debs Park: <https://councildistrict14.com/about/district-map>

I can't quite tell from the map whether there is any significant CD 14 coverage AT ALL in Debs proper as the 2 largish eastern chunks are labeled "Hermon Park (Arroyo Seco Park)" and "Rose Hills Park". Perhaps that is why Mr. Cody seems confused.

Be that as it may, I'm looking forward to this week's cleanup & subsequent plan for enforcement of fire and environmental mandates.

Sandy.

Question of the day!

Why is STONER Park still closed?

There's no construction on this parking lot and there's nothing unfinished on the green.

Why is our park still closed? It has been closed since October of 2020.

As you know there is a very limited amount of green space in our densely packed residential neighborhood.

Please advise on an official date that our park will be reopening.

Best regards

Issen Alibris

On Mon, Jul 26, 2021, 5:14 PM Issen Alibris

wrote:

Ashley,

Who are you? Are you the Parks and Recreation PIO? You didn't leave your title in this email. It's hilarious that you acknowledge that **communication is a problem** BUT have an email tagline that says "**Follow us on social media for everything Recreation and Parks related**". Is that tagline just for fun? Because you don't have a goddamn thing about park closures on Facebook or Twitter that anyone would find helpful.

If the Public Information Office can't offer good-faith answers **WHO is the person** who knows the **EXACT information** that I should be in contact with? Public Relations officers communicate information from the departments they represent. Your department needs to give you more accurate information to communicate with the public. I don't want an answer from someone who works with the city and has access to ALL of the departments to tell me I don't have all the answers. Find them out!

"**Expected to be open soon**" is not an acceptable response when I stated that the original sign from the City of Los Angeles in **October of 2020** said at the **beginning of the year** and a **Parks & Rec employee last month gave a timeline of 2 weeks**, 8 weeks ago. This means I have been given all kinds of timelines and there's been NO progress.

No one likes to be fed bullshit, least of all me after I have been patient with terrible communication between Mike Bonin's office directing me to the right department AND the Department of Parks and Rec playing kick the can.

**9 months** is entirely too long for this park to have been closed. No one should have to form a neighborhood group with lawyers and SUE the city or write the California Attorney General or their Senator to get an answer about a park

reopening.

There should be no COVID19 restrictions from the city on the park. The Governor lifted all restrictions on **June 15th** and the **Mayor's Order on June 15th** including Parks and Recreation has no restrictions. <https://www.lamayor.org/COVID19Orders> <<< **if you can find an order that isn't publicly posted DO share it with me.**

I walked by Stoner Park recently. The gate was up and Department of Parks and Recreation tents were up with kids on the field behind the gates playing softball. That means there's not a problem with the field if there was a group of children out there already.

The REPAIRS to the parking lot were completed MONTHS ago when they tore it up and people are already parking out there. There is NO legitimate reason that this park should not be open TODAY. The grass was set in June and the parking lot is fine enough for cars to park in during the day and at night based on the photos.

I have snapped SEVERAL times when I walk by. BRAVO on trying to build a playground that NO ONE surveyed anyone in the neighborhood about or asking anyone about. The colors for the fitness equipment that you all painted BRIGHT ORANGE and BLUE that kids and parents mistake for playground equipment currently was a fail

Here's what I want-- I want an ABSOLUTE date that the park is opening. I have been asking about this a year and I am sick of a different answer with every communication with the city.

I am officially committed to being a pain in the ass about this since I live here and want it open AND no one respects me enough as a resident to respond timely or give me straightforward answers that don't conflict with what I can see.

I am going to write to my state senators, my Congressmen, my US Senators, the Governor's office, the Attorney General's office and post flyers in my neighborhood inviting folks to call you and ask.

I may run Facebook ads to make my neighbors aware, I will then pitch my local news stations about depression, COVID19, a lack of outdoor spaces, I'll pitch local LA influencers and popular Instagram and TikTok accounts. I'll choose the ones that attack Democrats FIRST. Then I'll pitch national media with a Democrats are taking our public spaces pitch. "In LA where one can barely escape tents from our homeless crisis, we can't even access our local parks " These are great stories to accompany our recall coverage.

Thanks so much though and I can't WAIT to hear back from you.

The photos are yours to keep :P

Best,

Mr. Issen Alibris

Hi Mr. Alibris,

I understand your frustration and appreciate you reaching out with your concerns. While I don't have answers to many of your questions, I do want to let you know that we are working on reopening Stoner Park safely.

As you mentioned, Stoner Park is undergoing renovations as well as hosting summer camp, extended care, and youth basketball, volleyball, tennis, and flag football. As of right now, the park is open but the outdoor sports field area and parking lot are closed due to repairs and are expected to open soon. All LA City recreation centers and senior centers remain closed due to COVID-19.

As soon as the field is ready to reopen, our staff will gladly let visitors use that space. The parking lot needs to be repainted but street parking is available around the park. We also have plans to install a new playground in the Fall.

I understand communication is one of your biggest concerns, and I also know you are not the only person who feels that way, but I would appreciate patience as timelines and plans change. I hope you can understand that we all want to have our parks look the best and we want to be able to share them with our communities once they are safe and ready.

Thank you,

Ashley

On Wed, Jul 14, 2021 at 1:51 PM Issen Alibris

wrote:

Hello,

I am a WLA resident who lives around the corner from Stoner Park. **Last October** the City of Los Angeles closed Stoner Park. The sign said it was closed until the beginning of the year for some improvements.

**FIVE MONTHS LATER** in March I contacted CD11 Mike Bonin's office for an update and they had none. I contacted **Parks and Rec in April** and there was no clear answer about the park reopening. I contacted **Mike Bonin's office again in May** and was cc'ed to Parks and Rec and **ONLY** received a response via phone after I threatened to contact my journalism colleagues to do a story on the parks closure and lack of response from the city.

**In JUNE** I was told by a part-time employee at Stoner park told me he wasn't familiar with all the reasons it was closed. He did say that there was going to be a walk-through after they laid new sod. Then it would be about 2 weeks until the park reopened. That was **6 weeks ago**.

The park closure and reopening have been **TERRIBLY communicated** by the Parks and Recreation Department and CD11. There's a website and Twitter account which you all use to promote all kinds of things but nothing about park closures and openings. If this is the case for Stoner Park, how many other residents are being given the run around by the city about access to community green spaces?

Last Sunday as I rode my bike past the park to take pictures of the gate I spoke with an elderly couple who expressed similar concern about the extended closure of this park and the lack of communication about it from the city.

As a longtime resident of the community, I am disheartened that I have had to damn near become a nuisance to get people to do their jobs and communicate **BASIC** information about this park.

There are Seniors in the community who live alone who don't have access to green space, children who are out of school this summer, and folks who have been locked inside for over a year due to the COVID19 pandemic that can't access this space. Folks who are depressed and folks who **SHOULD** be able to enjoy the California sunshine in a greenspace near their home.

Enough is enough.

I can't wait to get an update. If not I will choose the **BEST** folks in the neighborhood to interview for reporters, pundits, and influencers.

Do have a great day.

Best,

Mr. Issen Alibris

On Sun, Aug 1, 2021 at 11:00 PM pong ucla < > wrote:

Hi all,

My family of 5 decided to go out to play Pickleball tonight at Petit Park just to find out that the lights were not turn on and it was just to dark and scary to play with all of the homeless encampment in the parking lot next to the court. So instead of having all of my 3 kids going outside and play, as recommended by all of the health expert, they're now back inside at home either watching TV or playing video games.

It saddened me to find out that the tax that our family pay to the local & federal government is not being well spent to keep the lights on at our local park. That families like ours cannot take their kids out and play to get some needed exercise in the late evening during the hot summer months in the San Fernando Valley. No wonder why childhood obesity is a serious problem in the United States, according to the CDC.

<https://www.cdc.gov/obesity/data/childhood.html>

I urge that the people in charge of this local neighborhood Petit Park to turns on those light, not just at the Pickleball courts, but all over the park including the tennis courts, basketball courts, soccer/baseball field, and children play area.

**Subject:** Kids need to exercise, lights for Pickleball courts at Petit Park - Granada Hills Recreation Center, PLEASE

Hi all,

My family of 5 decided to go out to play Pickleball tonight at Petit Park just to find out that the lights were not turn on and it was just to dark and scary to play with all of the homeless encampment in the parking lot next to the court. So instead of having all of my 3 kids going outside and play, as recommended by all of the health expert, they're now back inside at home either watching TV or playing video games.

It saddened me to find out that the tax that our family pay to the local & federal government is not being well spent to keep the lights on at our local park. That families like ours cannot take their kids out and play to get some needed exercise in the late evening during the hot summer months in the San Fernando Valley. No wonder why childhood obesity is a serious problem in the United States, according to the CDC.

<https://www.cdc.gov/obesity/data/childhood.html>

I urge that the people in charge of this local neighborhood Petit Park to turns on those light, not just at the Pickleball courts, but all over the park including the tennis courts, basketball courts, soccer/baseball field, and children play area.

Hi again everyone,

First of all, I'd like to thank you to those who got involved to help us out with the Pickleball nets and lightings at Petit Park.

Recently our Pickleball groups, of which more than half are teenage kids, have had a couple of unfriendly visit from Rita, the tennis coach. She also claimed to work for the park. Twice, she has come over to our group and yell at us, again mostly kids, complaining that we were taking away the court that could be use for tennis instead of Pickleball. She can be seen in the picture below here, wearing a pink cap:

Her complaint was that we had chalked up lines for Pickleball using sidewalk chalks and that it was too confusing to play tennis on the same court. This is absolutely false as other park in Los Angeles has multi-use tennis court that also serves as Pickleball court as long as the lines are of different colors. Please see the picture below:

And as you can see here from our Facebook group, the Thai Pickleball Club of Los Angeles, consist of mostly kids and their family:

<https://www.facebook.com/groups/2751655215155497>

providing free/open play of Pickleball to anyone and everyone is welcome to join.

Also, here's the link to the online petition that I've put together a few months ago which has already gather 268 signatures so far:

<https://www.change.org/p/councilmember-john-lee-more-pickleball-courts-in-the-san-fernando-valley>

It highlights what need to be done in order to make Petit Park one of a very few successful Pickleball venue in the San Fernando Valley.

None of us ever go over to the 2 existing tennis courts on the other side of the fence and harass Rita or anyone else playing tennis there. Therefore, can someone please kindly ask Rita to stop coming over from her side of the fence to harass us and especially scaring our kids when all they want to do is to come outside to play Pickleball and have fun in a healthy way. We would really appreciate it. Thank you very much.

Hello All,

And just to add a bit more information on the debacle that occurred yesterday with Rita, not only was she yelling and harassing our players, **NO ONE** was even attempting to use **ANY** of the tennis courts. I tried going over right away, as soon as I learned from her usual behavior, attempting to reason with her, but she had just left. What she did is completely unacceptable and this is not the first time her harassing behavior shows up. We know for a fact that she despises pickleball and I understand that everyone is entitled to their likings, but to show and demonstrate such a poor display of etiquette and manners in front of our community, which is comprised mostly of eager young people, who just want to learn to play Pickleball and have while doing so, it is just sad, pathetic, and disgusting, and if in fact, she works for Parks and Recreations, she is exposing the department for legal ramifications.

I concur with what Mr. Pong stated. Tracing lines, which I might add, are different color from the tennis lines, do not interfere with playing tennis, whenever a tennis player is using the court. I also know this, not only because I play tennis from time to time with my wife, but also because I have personally asked several of the tennis players, whom occasionally come to the courts.

I respectfully request, on behalf all pickleballers, that Rita is provided education on basic public speaking, decency, and manners and that a call of attention ought to be made to her before she creates more liability for your department, as, again, this is not the first time her harassing behavior comes over to the pickleball courts.

Respectfully,

Omar Bayter

Hi Ms Island and Animal Control --

Just touching base and checking in for updates. I think there was definitely an impact made when the rangers came a few weeks back and the unleashed dog crowd thinned out for a couple weeks and we saw people getting to enjoy the park again. That said slowly but surely the regulars are coming back. We have witnessed LAPD drive by the park slowly (not en route to an emergency) and do nothing with 8+ dogs off-leash in the park. They don't even do the basic minimum of getting on their loudspeaker and telling people to leash up. It contradicts the work the rangers are doing, the work Keith/Oakwood has been trying to do. Last week my neighbor also witnessed what seemed to be someone verbally berating an Oakwood Park staffer when the staffer asked the owners to leash their dogs. Some people are now letting their dogs run free but keeping the leash attached to the dog so they can say "the dog ran away"...it's all nonsense.

Some of the repeat people have been identified from the neighborhood as they have been coming every day for over a year. We have names for some people (they live in the neighborhood) , have photos of owners and license plates when people drive up and decide Oakwood is a dog park. Can citations be sent or warning letters? We have been told this would happen in the past to help let people know this violation is being taken seriously? Are there more patrols coming from the rangers, animal control, and LAPD? Yesterday 7:30-8:30 AM there were 9 dogs off-leash. This AM there were also roughly 11 dogs off-leash and a couple that got into the childrens playground area.

I have spent the week taking my dog to Westminster (about 1 mile from Oakwood), Santa Monica Airport park (1.7 miles), and Glen Alla (2 miles) and I have met plenty of dog owners who obey the laws and do the responsible thing.

The off-leash dog owners know the rules. Inconsistent enforcement (or LAPD not holding the line when they drive by) will not make a permanent impact.

Attached are a few pictures from today - I don't have time to upload them so they are pictures of pictures but I have plenty more from the last few days.

Please advise as to the plan moving forward. (attached are a few pictures from this AM)

Best,

On Wed, Jul 7, 2021 at 12:01 PM Laura Island <laura.island@lacity.org> wrote:

Good morning, Beth.

I was planning to send out this update today, to inform everyone of the steps taken by both LAPD and Recreation and Parks to better address the safety concerns at Oakwood Park.

A meeting was held last week to determine a more consistent enforcement plan. Effective immediately, LAPD has scheduled regular patrols in the morning hours and LA Park Rangers have scheduled additional patrols between 3 and 7 pm in the evening. In addition, Animal Services is hopeful to provide their support in the next few weeks. With a greater enforcement presence and increased citations of violators it is expected that we will see a significant decline in the amount of off leash dogs at the park.

As a long-term response to the problem, Recreation and Parks is in the early planning stages of an upgrade of Westminster Dog Park, which is only about a mile from Oakwood Park. The improved Dog Park will feature amenities that will be much more inviting to dogs and their owners - providing a much better alternative to the fields at Oakwood.

I hope you are encouraged by the support of the Council Office and other City Departments in providing improved enforcement and a safer park for the Oakwood community.

Thank you,  
Laura

> wrote:

Hi there -

Curious as to what the plan is moving forward with citations and patrol. Without some sort of consistency nothing will change. There was definitely a change in the park a few weeks back but things have been picking up again. There are currently 8+ dogs running loose in the park. Yesterday an LAPD officer was in the park playground area while dogs were running loose and nothing was said or done. LAPD also drove by at around 7:45pm and there were dogs off-leash and they didn't do the bare minimum and get on their loudspeaker to tell them to leash up. This sends mixed messages to people who come every day that they are allowed to have their dogs off-leash. When there isn't any consistent enforcement and tickets being written things quickly go back to the way they were. Also, this undermines the park staff that has been coming out periodically to tell people to leash up. Working together with a consistent plan is the only thing that will make a change. While the sliding gates were installed - they are only 4-5 openings and we asked for 8-10 openings. If enforcement can't be done the fences need to be removed. As discussed, Oakwood is the only fully enclosed park on the westside.

Also, we were told months ago on two occasions there would be warning letters sent to the people we can identify. Community members shared photos and license plate numbers. Were warnings sent out? My partner was walking our dogs months back and was verbally assaulted by Russell Smith 654 San Juan, Venice, CA 90291. Russell

sent me an email apologizing for yelling at her as he thought it was me. He went on to explain/admit that he brings his dogs to Oakwood unleashed. Mr. Smith was also at the original meeting last year when it was stated by LAPD, Parks & Recs, and Animal Control that people will be cited if their dogs are off-leash.

Attached are some photos of some of the regulars - several of them have been warned multiple times and they still come every day.

woman w/Labradoodle - comes in every day with a chuck-it ball thrower  
Hoodie - he has been warned 2x's that we have witnessed and comes every morning and some afternoons  
Russell Smith - Please note he is standing 5 feet away from the sign saying all dogs need to be leashed  
Random morning shot - there were 4-5 more dogs on the Broadway and 7th corner.

We seemed to have some momentum with enforcement and don't see why one rotating morning every week 15-20 mins can't be spent citing these people. Please advise as to the plan moving forward.

PLEASE SHARE WITH COMMISSIONERS

Hello RAP, LAPD, Animal Control, and CD 11,

It is disgusting that Pam Anderson, an Oakwood Park Advisory Board member and Oakwood Elder, was chased and threatened by an off-leash pitbull that came out of that park to attack her. I am so sorry to hear about it. I am grateful that Pam was not badly hurt but understand the assault that occurred and the threat of imminent injury.

Someone is going to get really hurt if RAP, LAPD, Animal Control, and CD 11 continue to let this off-leash dog issue continue at this historical pocket-park in the Oakwood community in Venice.

OAKWOOD IS NOT A DOG PARK! The City of Los Angeles does not have many dedicated dog parks but Venice has one in close proximity to Oakwood Park.

At around 5:30 on Tuesday, March 30, 2021 two young boys were playing at Oakwood Park. An off-leash dog kept trying to play with them. The mom asked the owner if she could restrain her dog because the boys just wanted to play together. She did not listen and the dog pushed one child down fracturing his wrist. The owner then took her dog and left without attending to the injured 11-yr-old boy.

At the Oakwood Park update meeting on July 3, 2019, another Oakwood Elder, Carol Powell, described being chased by an off-leash dog inside the park and having to scramble onto a picnic table at the north end of the park for safety while the owner remained oblivious. That is insane.

As Laura let you know, on May 25th, 2021 at around 6:30pm, an off-leash rushed at me as some community members gathered at the bleachers at the park. At that moment, I was speaking to the young boy who was injured on March 30, 2021 and his mom. He does not need to be re-traumatized. That dog was medium-large sized and barked as it ran up. I have been a dog-person all my life but I don't think this behavior is responsible ownership in any way. Other people do not need to be put in a position to figure out if a running barking is aggressive. Many dog owners are indifferent to other's fears of dogs. The young woman on May 25th was totally dismissive of our concerns. She did not even have a leash with her at the park.

Enough is enough.

Please remedy this situation immediately. Dog owners in Venice have a dog park. That is all that needs to be said. The City and city agencies should not have to be sued to take action that is required for community safety. The Oakwood community has already provided proof of this problem multiple times to all of the relevant agencies.

Please confirm receipt of this complaint. I would appreciate your response and a RAP policy determination as soon as possible.

Appreciatively,

Margaret Molloy

On Mon, Jun 14, 2021 at 7:44 PM Laura Ceballos > wrote:

Hello Laura,

I received a phone call at approximately 7:15pm today by Oakwood Park Advisory Board Member Pam Anderson. She was riding her bike by Oakwood Park on 7th when a vicious pit bull off of a leash ran out of Oakwood Park and rushed her on the bike. She was knocked over on her bike.

On Tuesday, May 25th 2021 at around 6:30pm, a dog off a leash rushed at Margaret Molloy, a Community Member, as we were gathered at the bleachers at the park. This led to a heated altercation. The ongoing dog issue has exacerbated. The installation of the retractable fences have proven to be unsuccessful. The openings of the gates are too small that it won't make much of a difference.

Thank you for your email. Your concerns and observations will be brought to the attention of LAPD and Animal Services today. Rec and Parks staff at Oakwood are not enforcement and we are doing everything we can on our end. We will continue to work with the other City agencies toward a solution.

Hi Ms Island and Animal Control --

Just touching base and checking in for updates. I think there was definitely an impact made when the rangers came a few weeks back and the unleashed dog crowd thinned out for a couple weeks and we saw people getting to enjoy the park again. That said slowly but surely the regulars are coming back. We have witnessed LAPD drive by the park slowly (not en route to an emergency) and do nothing with 8+ dogs off-leash in the park. They don't even do the basic minimum of getting on their loudspeaker and telling people to leash up. It contradicts the work the rangers are doing, the work Keith/Oakwood has been trying to do. Last week my neighbor also witnessed what seemed to be someone verbally berating an Oakwood Park staffer when the staffer asked the owners to leash their dogs. Some people are now letting their dogs run free but keeping the leash attached to the dog so they can say "the dog ran away"...it's all nonsense.

Some of the repeat people have been identified from the neighborhood as they have been coming every day for over a year. We have names for some people (they live in the neighborhood), have photos of owners and license plates when people drive up and decide Oakwood is a dog park. Can citations be sent or warning letters? We have been told this would happen in the past to help let people know this violation is being taken seriously? Are there more patrols coming from the rangers, animal control, and LAPD? Yesterday 7:30-8:30 AM there were 9 dogs off-leash. This AM there were also roughly 11 dogs off-leash and a couple that got into the childrens playground area.

I have spent the week taking my dog to Westminster (about 1 mile from Oakwood), Santa Monica Airport park (1.7 miles), and Glen Alla (2 miles) and I have met plenty of dog owners who obey the laws and do the responsible thing.

The off-leash dog owners know the rules. Inconsistent enforcement (or LAPD not holding the line when they drive by) will not make a permanent impact.

Attached are a few pictures from today - I don't have time to upload them so they are pictures of pictures but I have plenty more from the last few days.

Please advise as to the plan moving forward. (attached are a few pictures from this AM)

Best,

Good morning, Beth.

I was planning to send out this update today, to inform everyone of the steps taken by both LAPD and Recreation and Parks to better address the safety concerns at Oakwood Park.

A meeting was held last week to determine a more consistent enforcement plan. Effective immediately, LAPD has scheduled regular patrols in the morning hours and LA Park Rangers have scheduled additional patrols between 3 and 7 pm in the evening. In addition, Animal Services is hopeful to provide their support in the next few weeks. With a greater enforcement presence and increased citations of violators it is expected that we will see a significant decline in the amount of off leash dogs at the park.

As a long-term response to the problem, Recreation and Parks is in the early planning stages of an upgrade of Westminster Dog Park, which is only about a mile from Oakwood Park. The improved Dog Park will feature amenities that will be much more inviting to dogs and their owners - providing a much better alternative to the fields at Oakwood.

I hope you are encouraged by the support of the Council Office and other City Departments in providing improved enforcement and a safer park for the Oakwood community.

Thank you,  
 Laura

Hi there -

wrote:

Curious as to what the plan is moving forward with citations and patrol. Without some sort of consistency nothing will change. There was definitely a change in the park a few weeks back but things have been picking up again. There are currently 8+ dogs running loose in the park. Yesterday an LAPD officer was in the park playground area while dogs were running loose and nothing was said or done. LAPD also drove by at around 7:45pm and there were dogs off-leash and they didn't do the bare minimum and get on their loudspeaker to tell them to leash up. This sends mixed messages to people who come every day that they are allowed to have their dogs off-leash. When there isn't any consistent enforcement and tickets being written things quickly go back to the way they were. Also, this undermines the park staff that has been coming out periodically to tell people to leash up. Working together with a consistent plan is the only thing that will make a change. While the sliding gates were installed - they are only 4-5 openings and we asked for 8-10 openings. If enforcement can't be done the fences need to be removed. As discussed, Oakwood is the only fully enclosed park on the westside.

Also, we were told months ago on two occasions there would be warning letters sent to the people we can identify. Community members shared photos and license plate numbers. Were warnings sent out? My partner was walking our dogs months back and was verbally assaulted by Russell Smith 654 San Juan, Venice, CA 90291. Russell sent me an email apologizing for yelling at her as he thought it was me. He went on to explain/admit that he brings his dogs to Oakwood unleashed. Mr. Smith was also at the original meeting last year when it was stated by LAPD, Parks & Recs, and Animal Control that people will be cited if their dogs are off-leash.

Attached are some photos of some of the regulars - several of them have been warned multiple times and they still come every day.

woman w/Labradoodle - comes in every day with a chuck-it ball thrower

Hoodie - he has been warned 2x's that we have witnessed and comes every morning and some afternoons

Russell Smith - Please note he is standing 5 feet away from the sign saying all dogs need to be leashed

Random morning shot - there were 4-5 more dogs on the Broadway and 7th corner.

We seemed to have some momentum with enforcement and don't see why one rotating morning every week 15-20 mins can't be spent citing these people. Please advise as to the plan moving forward.

> wrote:

Hello RAP, LAPD, Animal Control, and CD 11,

It is disgusting that Pam Anderson, an Oakwood Park Advisory Board member and Oakwood Elder, was chased and threatened by an off-leash pitbull that came out of that park to attack her. I am so sorry to hear about it. I am grateful that Pam was not badly hurt but understand the assault that occurred and the threat of imminent injury.

Someone is going to get really hurt if RAP, LAPD, Animal Control, and CD 11 continue to let this off-leash dog issue continue at this historical pocket-park in the Oakwood community in Venice.

**OAKWOOD IS NOT A DOG PARK!** The City of Los Angeles does not have many dedicated dog parks but Venice has one in close proximity to Oakwood Park.

At around 5:30 on Tuesday, March 30, 2021 two young boys were playing at Oakwood Park. An off-leash dog kept trying to play with them. The mom asked the owner if she could restrain her dog because the boys just wanted to play together. She did not listen and the dog pushed one child down fracturing his wrist. The owner then took her dog and left without attending to the injured 11-yr-old boy.

At the Oakwood Park update meeting on July 3, 2019, another Oakwood Elder, Carol Powell, described being chased by an off leash dog inside the park and having to scramble onto a picnic table at the north end of the park for safety while the owner remained oblivious. That is insane.

As Laura let you know, on May 25th, 2021 at around 6:30pm, an off-leash rushed at me as some community members gathered at the bleachers at the park. At that moment, I was speaking to the young boy who was injured on March 30, 2021 and his mom. He does not need to be re-traumatized. That dog was medium-large sized and barked as it ran up. I have been a dog-person all my life but I don't think this behavior is responsible ownership in any way. Other people do not need to be put in a position to figure out if a running barking is aggressive. Many dog owners are indifferent to other's fears of dogs. The young woman on May 25th was totally dismissive of our concerns. She did not even have a leash with her at the park.

Enough is enough.

Please remedy this situation immediately. Dog owners in Venice have a dog park. That is all that needs to be said. The City and city agencies should not have to be sued to take action that is required for community safety. The Oakwood community has already provided proof of this problem multiple times to all of the relevant agencies.

Please confirm receipt of this complaint. I would appreciate your response and a RAP policy determination as soon as possible.

Appreciatively,

Margaret Molloy

Hey Guys:

I'm still a bit shook up, a damn dog ran out the Oakwood park gate into the street as I'm riding my bike by the park, and the dog ran up on me attacking me. The owner did not have her dog on a leash, she did not try to stop the dog at all. She didn't even tell her dog to stop at all, she just stood there.

Hello Laura,

I received a phone call at approximately 7:15pm today by Oakwood Park Advisory Board Member Pam Anderson. She was riding her bike by Oakwood Park on 7th when a vicious pit bull off of a leash ran out of Oakwood Park and rushed her on the bike. She was knocked over on her bike.

On Tuesday, May 25th 2021 at around 6:30pm, a dog off a leash rushed at Margaret Molloy, a Community Member, as we were gathered at the bleachers at the park. This led to a heated altercation. The ongoing dog issue has exacerbated. The installation of the retractable fences have proven to be unsuccessful. The openings of the gates are too small that it won't make much of a difference.

It has been brought to my attention that a renaming proposal is under consideration for Van Nuys Sherman Oaks War Memorial Park.

I would like to say that the name should stay the same because park property was deeded to the city with a clause that it must remain as a "war memorial park" in perpetuity. That being said, since the city acquired the property in 1947 with assistance from the Van Nuys Sherman Oaks War Memorial Park Association, Inc. and funding from the State, it would be proper to remain with the same name.

Thank you.

To: "[rap.commissioners@lacity.org](mailto:rap.commissioners@lacity.org)" <[rap.commissioners@lacity.org](mailto:rap.commissioners@lacity.org)>

Hello,

I am very concerned about the situation of wildlife at Balboa Lake in San Fernando area.

Ducks , geese , birds , fishes and many other creatures are living at balboa lake where fishing is allowed. Unfortunately every week we witness these innocent animals get injured by hooks or elastic wires that wraps around their leg and body do either they chew their tangled wires if they can't the body part that in trapped get infected , amputated or the suffering is deep that they die..

We mentioned these issues to park facility unfortunately we did not get any help or response.

The hooks often get to ducks mouth that they can't eat no more and they die..Also hooks get sticks to children's shoes and harm them ...

It is hard to see the injured animals because they hide to die Weser them while we pick the hooks up and help the injured ones...

We are about 3 volunteer that care for these birds out of pocket. We are reaching to many organization no help in any means..

We desperately need your help.

We do have many cases recorded for references .

We have picture video bill references and many more.

Please please please help us trough this huge issue...

To Whom It May Concern:

As a senior citizen (80 years old) and having played LA courses for nearly 30 years, I've been highly frustrated over the compilation of my earned golf points for potential free play at LA public courses. I do have a senior card (la-120567).

For the past 6 months, whenever I ask the course "starter" (regardless of the course) about the number of points that I've accumulated...I keep getting told that I have **negative** points...how is that possible? How could one have ever used points I didn't have (??)

Each course tells me that I have to discuss my point situation at each specific course... that's ridiculous !! The system (if operated correctly) should always have a cumulative total, so when they tell me that they don't have a record of other courses is simply ridiculous...or you need to get your money back from whomever you used to set up the system !!

**Anyway, I decided to research the issue myself by looking at my credit card history (since I always use my credit card for payment) as well as my calendar for the period beginning in *January 2020*.** I found that 4 of those dates show points deducted, but for 3 of those dates, I've actually paid for those days, and 1 day I actually was out of town visiting my brother in Palm Springs....??? Either the Reservation System is NOT operating correctly, or someone(?) is using my card number, which I doubt.

My analysis (see schedule attached) shows that I should have 1,077 points, **PLUS** whatever points I had accumulated as of **12/31/19**...which I think could be anywhere between 500-1,500 points. I've rotated playing between 4 courses (Encino, Balboa, Woodley and Hansen Dam) for the past 25-30 years almost weekly, but I don't know when the point system began.

I respectfully request that my account be updated promptly. Unfortunately, I was diagnosed with melanoma cancer on my lung and will begin treatment on August 10th. I'm hoping to return to golf within 2-4 months, so I would like my account updated as soon as possible !!

Please advise and thank you for your consideration.

Respectfully,

[Nick Roberts](#)

Mr. Roberts

Thank you for your email. These last few months there has been an issue with the golf course computers not being able to transmit each day's loyalty point information to the central server every night. This is the reason why you see different point totals at the bottom of your receipts that do not add up especially when you play different courses. The problem has not been resolved yet but in the meantime point totals are now updating once a week on Fridays. While point totals are not 100% accurate, what the golf course staff can see is very close. We are working with the vendor that provides our Point of Sale systems to come up with a fix that will allow loyalty points to sync up daily but we do not have a timeline on when that will be yet.

Attached you will find a spreadsheet of all your transactions going back to July of 2018. Your current point total is not negative, you actually have 159 points. Your round from 8/3/21 has not been added to your total yet, so after this Friday your total will be 195. In looking at the spreadsheet you will see the points you have earned, the date, and the course that they were earned at. The numbers in parenthesis are the points you have redeemed and represent a negative number. If you think there is an error for a specific date let me know and I can look into that transaction further.

Thanks

 Subject: Earned Golf Points For Free Play  
 To: <rap.commissioners@lacity.org>

To Whom It May Concern:

As a senior citizen (80 years old) and having played LA courses for nearly 30 years, I've been highly frustrated over the compilation of my earned golf points for potential free play at LA public courses. I do have a senior card (la-120567).

For the past 6 months, whenever I ask the course "starter" (regardless of the course) about the number of points that I've accumulated...I keep getting told that I have **negative** points...how is that possible? How could one have ever used points I didn't have (??)

Each course tells me that I have to discuss my point situation at each specific course... that's ridiculous !! The system (if operated correctly) should always have a cumulative total, so when they tell me that they don't have a record of other courses is simply ridiculous...or you need to get your money back from whomever you used to set up the system !!

**Anyway, I decided to research the issue myself by looking at my credit card history (since I always use my credit card for payment) as well as my calendar for the period beginning in January 2020.** I found that 4 of those dates show points deducted, but for 3 of those dates, I've actually paid for those days, and 1 day I actually was out of town visiting my brother in Palm Springs....??? Either the Reservation System is NOT operating correctly, or someone(?) is using my card number, which I doubt.

My analysis (see schedule attached) shows that I should have 1,077 points, **PLUS** whatever points I had accumulated as of **12/31/19**...which I think could be anywhere between 500-1,500 points. I've rotated playing between 4 courses

(Encino, Balboa, Woodley and Hansen Dam) for the past 25-30 years almost weekly, but I don't know when the point system began.

I respectfully request that my account be updated promptly. Unfortunately, I was diagnosed with melanoma cancer on my lung and will begin treatment on August 10th. I'm hoping to return to golf within 2-4 months, so I would like my account updated as soon as possible !!

Please advise and thank you for your consideration.

Respectfully,

Nick Roberts
