Approved X Disapproved Withdrawn
If Approved: Board President [Signature] Board Secretary [Signature]

RECOMMENDATIONS

- 1. Find that the continued emergency use for an additional period not to exceed one (1) year of operation for a total term of operation of four (4) years of a portion of the Department of Recreation and Parks' (RAP) North Hollywood Recreation Center located at 11466 Chandler Boulevard, Los Angeles, CA 91601 (Los Angeles County Assessor's Parcel No. 2350-011-900) (Project Site) as a temporary homeless shelter, is consistent with the use of a portion of North Hollywood Recreation Center for park purposes;
2. Approve the Council District (CD) Two (2) North Hollywood Recreation Center Pallet Shelter Homeless Project (Project), as further described in the Summary of this Report and as previously approved in Board Report No. 20-160, for an additional period not to exceed one (1) year of operation;

BOARD REPORT

PG. 2 NO. 23-187

3. Authorize RAP's General Manager or designee to issue a license to the Department of General Services and/or any designated City Department for the operation, security and maintenance of the proposed Project for a period not to exceed one (1) year of operation;
4. Determine that the project is statutorily exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to Public Resources Code (PRC) Section 21080(b)(4) [Specific actions necessary to prevent or mitigate an emergency] as reflected in State CEQA Guidelines Section 15269(c), and PRC Section 21080.27 (AB 1197);
5. Request the Bureau of Engineering (BOE) to file a Notice of Exemption (NOE) with the Los Angeles County Clerk within 5 working days from the approval of this Report, file the NOE with the State Clearinghouse, and publish it on the BOE website; and
6. Authorize RAP's General Manager, or designee, to make technical corrections as necessary to carry out the intent of this Report.

SUMMARY

Homelessness Emergency in the City of Los Angeles

In April 17, 2018, City Council (CF No. 15-1138-S33), with the support of the former Mayor Eric Garcetti, unanimously voted to declare an emergency shelter crisis in the City of Los Angeles. With this declaration and pursuant to Los Angeles Municipal Code (LAMC) 12.80 and 12.81, shelters could now be established and operated on non-governmental property as well as property owned or leased by the City of Los Angeles in any zone without limits.

On May 30, 2018, former Mayor Garcetti issued Executive Directive No. 24 which directed fifteen (15) City Departments to prioritize and facilitate the construction of temporary emergency homeless shelters also called Bridge Housing. Although RAP was not one of the fifteen (15) City Departments named in the subject directive, RAP, with its over four hundred fifty (450) parks, was asked to contribute to alleviating the emergency shelter crisis within the City of Los Angeles.

On December 12, 2022, Mayor Karen Bass declared a state of emergency on homelessness (Attachment 2). Mayor Bass subsequently issued Executive Directives to expedite the construction of affordable and temporary housing and maximize the use of City-owned property for temporary and permanent housing. Further, on May 16, 2023, the City Council extended the declaration of the state of local emergency on homelessness until June 12, 2023.

Ordinance 187,922, which became effective on July 5, 2023, added Section 8.33 to Article 3, Chapter 3, Division 8 of the Los Angeles Administrative Code (LAAC) which empowers the Mayor to declare a local housing and/or homeless state of emergency when certain criteria are met. Per

BOARD REPORT

PG. 3 NO. 23-187

LAAC 8.33, "Upon the Mayor's declaration of a local housing and/or homelessness emergency, the Mayor shall coordinate citywide planning and response with respect to unsheltered or unhoused individuals in conjunction with the City Administrative Office, Los Angeles Homeless Services Authority, Los Angeles City Housing Department, Los Angeles City Planning Department, and all other necessary departments and agencies. The Mayor shall also coordinate the City's efforts to address a declared emergency under this section with the County of Los Angeles, the State of California, and the federal government. Within 30 days, the Mayor shall submit to the City Council a plan of action to address the emergency." The City Council shall receive a resolution within 30 days from the date of the original declaration of the Mayor, which the Council may consider and rescind by majority vote. Thereafter, the declaration shall expire unless the City Council renews it by majority vote every 90 calendar days.

On July 7, 2023, the Mayor made a declaration of local housing and homelessness emergency per the authority granted under LAAC 8.33 (C.F. #22-1545 and 23-0652-S1) (Attachment 3). The declaration of local housing and homeless state of emergency is still in effect.

Temporary Homelessness Facility at North Hollywood Recreation Center

On August 6, 2020, the Board of Recreation and Parks Commissioners approved the installation and operation of a temporary homeless facility (Shelter) at 11466 Chandler Boulevard for a period of three (3) years (Report No. 20-160). The Shelter and its associated amenities include a thirty-five (35) 8'x8' pallet shelters, one (1) 7'x26' hygiene mobile units, one (1) 8'x40' modular shipping container offices, and one (1) 10'x10' pallet for storage. The site will also accommodate three (3) parking stalls, a large gathering space in front of the administration office with seating, an eating area with picnic tables and umbrellas for shade, a pet area, garden area and an emergency fire lane access road. The Shelter completed construction in January 2021.

On July 22, 2021, RAP issued a right-of-entry (ROE) permit to the Department of General Services (GSD) for the operation of the Shelter for a period of three (3) years. GSD leased the site to Hope of the Valley Rescue Mission for the operation of the Shelter. The ROE permit between RAP and GSD expires on January 21, 2024.

On October 25, 2023, the Office of the City Administrator requested that RAP extend the operation of the Shelter (Attachment 4).

The Office of Council District 2 is supportive of the continued operation of the Shelter.

Upon approval of this Report, RAP will authorize the continued operation of the Shelter at the Project Site for an additional one (1) year period and will issue an ROE permit to GSD for a period of one (1) additional year for the continued operation of the Shelter.

BOARD REPORT

PG. 4 NO. 23-187

ENVIRONMENTAL IMPACT

The proposed Project is a specific action necessary to prevent or mitigate an emergency – the conditions arising from a sudden and unexpected dramatic rise in the City’s already dangerously large homeless population. The Project consists of the extension of the operation of a temporary homeless shelter for one year. A third party will operate the site and provide case management for people experiencing homelessness to help bridge their transition from living on the streets to finding services and, ultimately, living in transitional and/or permanent housing.

The Board of Recreation and Park Commissioners approved the installation of the temporary shelter on August 6, 2020 (Board Report No. 20-160), and the City Council subsequently approved the project on September 9, 2020 (CF No. 20-0841).

Public Resources Code Section 21080(b)(4) provides that CEQA does not apply, to “specific actions necessary to prevent or mitigate an emergency.” Public Resources Code section 21060.3 defines Emergency as “a sudden, unexpected occurrence, involving a clear and imminent danger, demanding immediate action to prevent or mitigate loss of, or damage to, life, health, property, or essential public services.” Section 21060.3 further defines Emergency to include “such occurrences as fire, flood, earthquake, or other soil or geologic movements, as well as such occurrences as riot, accident, or sabotage.”

Furthermore, State CEQA Guidelines Section 15269, “Emergency Projects,” provides examples of emergency projects exempt from the requirements of CEQA, including the following:

Specific actions necessary to prevent or mitigate an emergency. This does not include long-term projects undertaken for the purpose of preventing or mitigating a situation that has a low probability of occurrence in the short-term, but this exclusion does not apply

(i) if the anticipated period of time to conduct an environmental review of such a long-term project would create a risk to public health, safety or welfare, or

(ii) if activities (such as fire or catastrophic risk mitigation or modifications to improve facility integrity) are proposed for existing facilities in response to an emergency at a similar existing facility.

On December 12, 2022, Mayor Bass declared a homelessness emergency in the City of Los Angeles, which declaration was ratified by the City Council (CF No. 22-1545). On July 7, 2023, Mayor Bass again declared a local housing and homelessness emergency because “the City still finds itself in an emergency” with emergency conditions continuing to require prompt abatement due to the severe shortage of beds available to the unhoused population.

BOARD REPORT

PG. 5 NO. 23-187

Assembly Bill 1197 (Santiago, 2019) signed into law on September 26, 2019, adopted Section 21080.27 of the California Public Resources Code (PRC) and created a statutory exemption for compliance with CEQA for emergency shelter projects located within the City of Los Angeles.

PRC Section 21080.27(a)(2) requires that emergency shelters be approved during a shelter crisis under Government Code Section 8698.2. The City Council declared a homeless shelter crisis pursuant to Government Code Section 8698, et seq. on April 17, 2018, which declaration remains in effect.

PRC Section 21080.27(a)(2) also requires that emergency shelters meet the definition of “Low Barrier Navigational Center” in Government Code Section 65660, which defines Low Barrier Navigation Center as a “Housing First, low-barrier, service-enriched shelter focused on moving people into permanent housing that provides temporary living facilities, while case managers connect individuals experiencing homelessness to income, public benefits, health services, shelter and housing.” This Project provides temporary housing and allows the privacy of participants, the presence of partners, and is a pet friendly. Case managers staff the facility and provide connections to homeless family services and assistance for the occupants. Case management staff develop individual stability plans to define participants’ housing goals and service plans.

According to PRC Section 21080.27(a)(2), emergency shelters must also meet the requirements identified in Government Code Section 65662: (1) services to connect families and individuals to permanent housing; (2) established links to a coordinated entry system; (3) compliance with the relevant sections of the Welfare and Institutional Code; and (4) a system connected to a local Homeless Management System. The agreement with the third party managing the site includes these four performance requirements.

Finally, PRC Section 21080.27(a)(2) requires that the project is located in either a mixed use or non-residential area and that it is funded by a restricted number of funding sources. The proposed Project Site is in an Open Space and Infill zone and is partially funded through specific funding sources included in Section 21080.27(a)(2).

Based on these considerations, staff recommends that the Board of Recreation and Park Commissioners determine that the proposed Project is exempt from CEQA environmental review pursuant to PRC Section 21080(b)(4) as reflected in State CEQA Guidelines section 15269(c), and PRC Section 21080.27 (AB 1197). Staff recommends also that the Board request that the Bureau of Engineering (BOE) file a Notice of Exemption (NOE) with the Los Angeles County Clerk, file the NOE with the State Clearinghouse, and publish it on the BOE website.

FISCAL IMPACT

Approval of this Report will have no fiscal impact on RAP’s General Fund. RAP is not responsible for any costs associated with the operation or maintenance of the Shelter.

RECOMMENDATIONS

1. Find that the emergency use for a temporary period not to exceed three (3) years of operation, of a portion of the Department of Recreation and Parks' (RAP) North Hollywood Recreation Center (Exhibit A) located at 11466 Chandler Blvd., North Hollywood, California 91601 (Los Angeles County Assessor's Parcel No. 2350-011-900), as a temporary homeless shelter site, is consistent with the use of a portion of North Hollywood Recreation Center for park purposes;
2. Approve the proposed construction of the CD 2 North Hollywood Recreation Center Pallet Shelter Homeless Project (Project), as further described in the Summary of this Report, and its operation for a period not to exceed three (3) years;
3. Approve design plans, substantially in the form as attached to this Report and further described in the Summary of this Report, for the Project to be located in a portion of North Hollywood Recreation Center (Exhibit B);

BOARD REPORT

PG. 2 NO. 20-160

4. Authorize RAP's General Manager or designee to approve technical revisions to the plans as necessary, to complete the construction of the proposed Project, and authorize RAP's General Manager or designee to approve material changes to the design plans when necessary to comply with Los Angeles Department of Building and Safety recommendations and requirements;
5. Authorize RAP's General Manager or designee to issue a license (e.g. Temporary Right of Entry Permit), as needed, to the Department of Public Works, Bureau of Engineering (BOE); Department of General Services (GSD); or other City Departments to conduct site preparation, utility installation, construction and other works related to the installation of the proposed Project at North Hollywood Recreation Center;
6. Authorize RAP's General Manager or designee, which may include another City Department, to issue a license to a housing operator for the operation, security and maintenance of the proposed Project for a period not to exceed three (3) years of operation;
7. Find that the proposed Project is statutorily exempt from the provisions of the California Environmental Quality Act (CEQA), pursuant to PRC Section 21080(b)(4)[Specific actions to prevent or mitigate an emergency], as reflected in California CEQA Guidelines Section 15269(c); and,
8. Request the Bureau of Engineering to file a Notice of Exemption (NOE) within five (5) working days of approval with the City and the Los Angeles County Clerk's Office.

SUMMARY

Declaration of an Emergency Shelter Crisis in the City of Los Angeles

In April 17, 2018, City Council (CF No. 15-1138-S33), with the support of the Mayor, unanimously voted to declare an emergency shelter crisis in the City of Los Angeles. With this declaration and pursuant to Los Angeles Municipal Code (LAMC) 12.80 and 12.81, shelters could now be established and operated on non-governmental property as well as property owned or leased by the City of Los Angeles in any zone without limits.

On May 30, 2018, Mayor Garcetti issued Executive Directive No. 24 which directed fifteen (15) City Departments to prioritize and facilitate the construction of temporary emergency homeless shelters also called Bridge Housing. Although, RAP was not one of the fifteen (15) City Departments named in the subject directive, RAP, with its over four hundred fifty (450) parks, was asked to contribute to alleviating the emergency shelter crisis within the City of Los Angeles.

On March 20, 2019, the Board of Recreation and Parks Commissioners (Board), through Report No. 19-062, approved the construction and operation of a temporary homeless shelter and storage facility on a 0.7 acre or 30,127 square feet portion of RAP's Lafayette Park. Subsequently, on September 4, 2019, the Board, through Report No 19-179, approved the construction and operation of a second temporary homeless shelter and storage facility on a

BOARD REPORT

PG. 3 NO. 20-160

0.65 acre or 28,500 square feet portion of RAP's Griffith Park on Riverside Drive. The Griffith Park- Riverside Drive shelter was completed in June and operations began on July 8. The Lafayette Shelter **is to be completed at the end of August and operations will begin on September 1.**

LA Alliance for Human Rights vs. City of Los Angeles

In June 2020, the City of Los Angeles (City) and the County of Los Angeles (County) reached an agreement to provide housing and services for up to 6,700 homeless people who live near freeways and those over 65 years of age or vulnerable to COVID-19. This agreement was approved by a federal judge related to a lawsuit filed in March 2020 by the Los Angeles Alliance for Human Rights which accused the City of Los Angeles of failing to comprehensively address the homeless crisis.

Under the agreement, the City will provide 6,700 beds within eighteen (18) months and the County will provide up to \$300 million over the next five (5) years to fund homeless services. The County also agrees to pay the City a one-time bonus fee of \$8 million if 5,300 beds are available within ten (10) months.

Ten (10) city-owned properties have been initially recommended as potential sites for this effort. Of these, three (3) are on park property. The three (3) park sites are Valley Plaza Park, North Hollywood Recreation Center, and Strathern Park West. All these parks are within Council District Two. With the support of the office of Los Angeles Councilmember Paul Krekorian, RAP staff working with other City staff have evaluated the proposed park sites and agree with the recommendations. There has been outreach with the community in the past for these locations. However, due to COVID-19, the urgency to address the public health and safety conditions, and the timeline set forth in the court-approved agreement extensive community outreach has not been conducted.

The portion of the North Hollywood Recreation Center that is proposed for this project measures approximately 0.5 acres or 21,705 square-feet (see Exhibit B). The Project area is separated from the larger park by Chandler Boulevard and is undeveloped with no existing structures. Due to its location and access issues, this triangular shaped property has been unused. In 2008, the Board, through Report No. 08-214, considered a proposal from a charter school to lease the subject property for the construction and operation of a charter school. The Board denied the request on the basis that a charter school is not a park use. The report cited several other proposals received that indicated problems associated with the site due to the fact that it was unused. The proposed Project will provide much needed use and activity to the park. The installation of the shelter will require the construction and placement of sewer lines, utilities and an access road which could be used for future park development once the shelter operations cease.

The proposed Project will provide shelter and services for up to 66 homeless individuals. The entire 0.5 acre or 21,705 square-foot site will be developed. The scope of work will include thirty-five (35) 8'x8' Pallet Shelters, one (1) – 7'x26' Hygiene Mobile Units, one (1) – 8'x40' modular shipping container offices, and one (1) 10'x10' Pallet for storage. The site will also accommodate 3 parking stalls, a large gathering space in front of the administration office with seating, an eating

BOARD REPORT

PG. 4 NO. 20-160

area with picnic tables and umbrellas for shade, a pet area, garden area and an emergency fire lane access road.

The proposed Project is unique in its use of pallet shelters as habitable structures. Pallet shelters are small, white rectangular structures constructed with a fiberglass material and an aluminum frame. These shelters come in two sizes: a (8'x8') 64-square-foot and a (10'x10') 100-square-foot model. These can be set up with little to no tools in under an hour. They come with a fold-up bed, windows, a ventilation system, and a front door that locks. They are an "Ikea approach to shelter," as the shelter comes in pieces that are assembled on site (see Exhibit C).

There are currently no pallet shelters in the City. However, there are four pallet shelters located in California. The first is a 60-unit shelter built in 10 days and operated by the County of Sonoma. The second is a 30-unit shelter built in 4 days and operated by the City of Riverside. The third is a 20-unit shelter operated by the City of Banning. The fourth is a 10-unit shelter built in 1 day operated by the City of Santa Cruz. All four shelters were built on existing parking lots.

Advantages to the use of pallet shelters include the fact that they are prefabricated and can easily be built in less than one hour with minimal tools. The shelters can be outfitted with beds, climate control, safety features, electricity, and more. They can be ready for resident move-in within a short amount of time.

ENVIRONMENTAL IMPACT

The proposed Project consists of the new construction of a temporary homeless shelter and is meant to prevent or mitigate the conditions arising from a sudden and unexpected dramatic rise in the City's already dangerously large homeless population. City Council declared a homeless shelter crisis pursuant to Government Code Section 8698, et seq. on April 17, 2018. The 2020 Homeless population count shows an unexpected and unabated dramatic surge in homelessness, and finds that the number of people experiencing homeless in the City has increased by 16.1% in one year, while the unsheltered homeless population has increased by 8.4%. Studies illustrated in the Notice of Exemption (Attachment 4) show the burden that homelessness imposes to life, health, property, and to essential public services in the City. Furthermore, the City is facing an unprecedented emergency at the current time due to the sudden occurrence of the COVID-19 pandemic, and this emergency is particularly concerning for the imminent threat it poses to the City's homeless population. In the United States District Court Central District of California case of *LA Alliance for Human Rights Et Al. vs. the City of Los Angeles, Et al.* Case No. 20-cv-02291-DOC concerning homelessness, the Court entered a May 2020 injunction, which has since been vacated for other reasons, recognizing that the combined risks of health impacts from living near freeways and the on-going COVID-19 pandemic constitute an emergency.

Public Resources Code (PRC) section 21080(b)(4) provides that the California Environmental Quality Act (CEQA) does not apply to "specific actions necessary to prevent or mitigate an emergency." PRC section 21060.3 defines *emergency* as, "a sudden, unexpected occurrence, involving a clear and imminent danger, demanding immediate action to prevent or mitigate loss of, or damage to, life, health, property, or essential public services." Section 21060.3 further

BOARD REPORT

PG. 5 NO. 20-160

provides that *emergency* “includes such occurrences as fire, flood, earthquake, or other soil or geologic movements, as well as such occurrences as riot, accident, or sabotage.” Moreover, Article 18, Section 15269(c) of CEQA Guidelines clarifies that a project to prevent a future emergency – such as this Project, which is designed to mitigate the impacts caused by the sudden and unexpected dramatic rise in the City’s already dangerously large homeless population, now adversely impacted by the COVID-19 pandemic— need not be sudden or unexpected to qualify as statutorily exempt from CEQA compliance.

As such Based on these considerations, RAP staff recommends that the Board determines that the proposed Project is statutorily exempt from the provisions of CEQA pursuant to PRC Section 21080(b)(4), as reflected in Article 18, Section 15269(c) of California CEQA Guidelines.

City Staff will file a Notice of Exemption (NOE) with the Los Angeles County Clerk should the Board grant this approval.

Staff also underlines that other exemptions may apply once the City identifies a qualifying source of funding for the project.

FISCAL IMPACT

This proposed Project will be fully funded through the A Bridge Home Program and a maintenance fund will be established for the duration of services. There is no fiscal impact to RAP’s general fund.

This Report was prepared by Cid Macaraeg, Sr. Management Analyst II, Planning, Construction and Maintenance Branch.

NOTE:

- WORK INCLUDES SITE DEVELOPMENT WITH THE MINIMUM FOLLOWING AMENITIES:
- a. PALLET SHELTER 64 - EACH WITH 2 BEDS OR 1 BED FOR DESIGNATED ADA UNITS. SEE SHEET A200 FOR REFERENCE.
 - b. FIXED HYGIENE TRAILERS WITH SHOWERS, RESTROOMS, DRINKING FOUNTAINS (REQUIRE HARD PIPING TO SEWER AND TO WATER) SEE SHEET A300 FOR REFERENCE.
 - c. PALLET SHELTER 64 FOR ADMINISTRATIVE USE, 2 MINIMUM PER SITE.
 - d. PERIMETER CHAIN LINK FENCING OF SITE.
 - e. EGRESS AND SITE LIGHTING. SEE E-SHEETS FOR REFERENCE.
 - f. STAFF PARKING - MINIMUM OF 3 STALLS.
 - g. ENCLOSED TRASH BIN AREA
 - h. SITE SHALL HAVE AN LAFD APPROVED 20 FT WIDE FIRE APPARATUS ACCESS LANE, AND TURNAROUND WHERE NECESSARY.
 - i. DESIGNATED LOADING AREA (FIRE LANE MAY BE USED) SEE CIVIL SHEETS FOR REFERENCE.
 - j. DESIGNATED FOOD DISTRIBUTION AREA (PAVED AREA: MINIMUM 10 FT BY 10 FT)
 - k. INTERNET AND SECURITY CAMERAS (INFRASTRUCTURE ONLY - CONDUIT)
 - l. PICNIC BENCHES WITH UMBRELLAS
 - m. POWER TO INDIVIDUAL PALLET SHELTERS, SEE ELECTRICAL SHEETS FOR REFERENCE.
 - n. POWER AND LOCATION FOR A HOT BOX (PROVIDE OUTLET OUTSIDE THE PALLET SHELTER)
 - o. STORAGE SHED FOR SUPPLIES (10 FT BY 10 FT PALLET SHELTER)
 - p. SITE PAVING - DECOMPOSED GRANITE AND, ASPHALT.
 - q. OUTLET FOR REFRIGERATION ADJACENT TO PALLET SHELTER (OUTDOOR)

EXEMPTION NARRATIVE

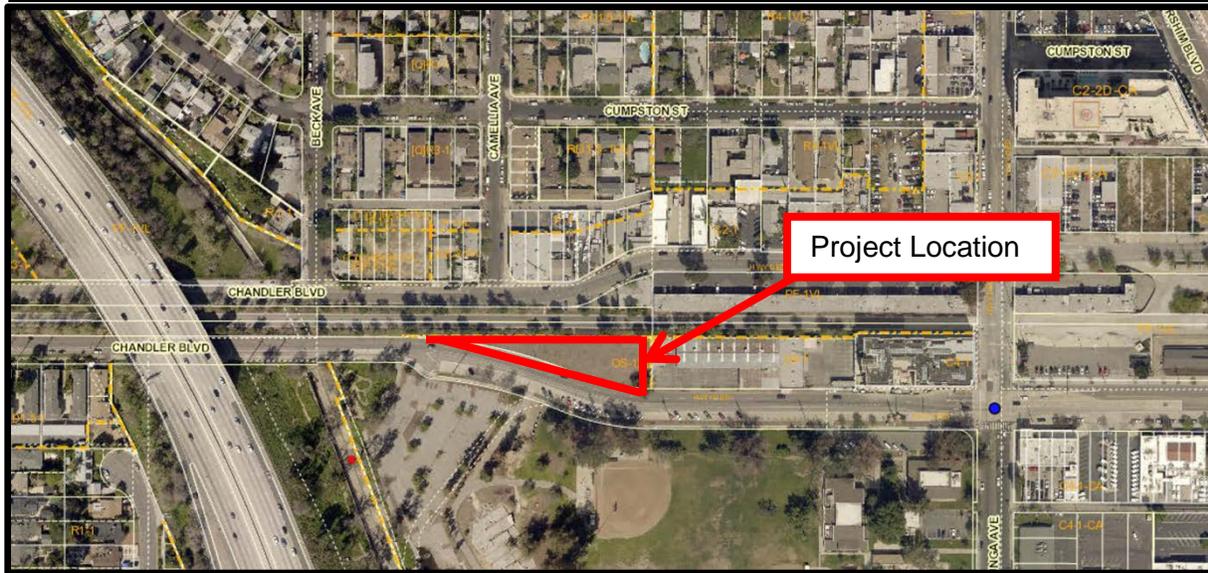

The proposed project includes the construction of a new homeless shelter site at a Recreation and Parks site that will provide emergency shelter, hygiene, storage, and food services to people experiencing homelessness. The project site is located on a parcel comprised of one lot in the North Hollywood area of the North Hollywood - Valley Village Community Plan Area in the City of Los Angeles Council District 2 (CD 02), 11471-11484 Chandler Blvd., North Hollywood, CA 91601, Assessor's Parcel Number (APN) 2334-002-900, see *Figure 1 – Project Site Location*. The project site is on an irregularly shaped approximately 21,706-sf City of Los Angeles Department of Recreation and Parks owned parcel that is currently developed as a park (City of Los Angeles Department of City Planning, 2020).

The project includes the construction of a new homeless shelter site at a Recreation and Parks site that includes pallet shelters with beds for up to 66 individuals experiencing homelessness, in furtherance of providing emergency homeless shelter beds in the City of Los Angeles. Pallet shelters are small, detached, pre-fabricated cabins made of aluminum and composite materials that will be assembled on site. The project includes approximately 34 pallet shelters; 32 with double beds (64 occupants) and 2 with ADA single beds. Additionally, there will be two pallets for administration and one pallet for storage, both with no beds. The shelter will be operated consistent with the Los Angeles Homeless Services Authority's (LAHSA) program requirements for bridge shelters including, but not limited to, LAHSA's Scope of Required Services and Program Standards. A third-party service provider will operate the project for the City and it is anticipated that a lease or similar operating and/or funding agreements may be executed.

The site will also include outdoor lighting, perimeter fencing, hygiene trailers with restrooms, showers, lavatories, drinking fountains, a double gate, a new deck, ramp and stairs, a trash bin area, outdoor seating, a pet area, new power service, new asphalt paving, k-rails for sidewalks, staff parking, site lighting, a food distribution area, and designated seating areas for food services. Site preparation will require grading, removal of at least one mature tree and trimming of existing large trees. The existing trees will be incorporated in the project design.

The project is zoned OS with an Open Space land use. The site is a triangular shaped infill parcel located just west of the intersection of Chandler Blvd. and Tujunga Ave. and is bounded on the east by commercial parcels adjacent to Tujunga Ave., on the south and north by Chandler Blvd. (westbound and eastbound)., on the west tapering to a point between Chandler Blvd's east and westbound lanes near Interstate 170 Hollywood Freeway. Parcels that surround the site on the north are commercial zoned with commercial uses and on the south are open space zoned with public institutional uses as a public park; and to the east are zoned commercial with commercial uses (City of Los Angeles Department of City Planning, 2020).

Project Site Location Map

I. PROJECT HISTORY: HOMELESS SHELTER CRISIS AND EMERGENCY

A. Homelessness Imposes a Loss of, or Damage to, Life, Health, Property, and to Essential Public Services in the City

Homelessness presents a danger of loss or damage to the health and property of the people of the City and an undue burden on essential public services. Homeless persons constitute approximately 0.78 percent of the City's population (Los Angeles Homeless Services Authority, 2018).

In 2018, homeless persons constituted 13.5 percent of LAFD's total patient transports to a hospital, meaning a homeless person is 17 percent more likely to require emergency hospital transportation than the general population (LAFD Battalion Chief and Paramedic Douglas Zabalski, 2019). Studies have shown that individuals identified as homeless utilize health care services more frequently than comparable non-homeless individuals of the same age, gender, and low-income status, particularly high-cost services such as ER visits and psychiatric hospitalizations (Hunter, 2017) (Hwang SW, 2013).

Los Angeles County's Chief Executive Officer reported the County spent \$965 million on health, law enforcement, and social services toward individuals experiencing homelessness in fiscal year 2014–2015 (Wu, 2016). Consistent with that report, a 1998 study in the *New England Journal of Medicine* found that homelessness was associated with substantial excess costs per hospital stay in New York City, with homeless patient staying in the hospital 36 percent longer per admission on average than other patients (Salit, *Hospitalization Costs Associated with Homelessness in New York City*, 1988).

Homelessness also causes significant danger to the health and lives of persons who are homeless. Homeless individuals living in the City are frequent crime victims. In 2018, LAPD reported 2,965 instances where a homeless individual was a victim of a serious crime, including homicide, rape, aggravated assault, theft, and arson (also known as "Part 1 Crimes.") (Commander Dominic H. Choi, 2019). This compares to 1,762 such crimes in 2017, a 68 percent increase (*Id.*). This dramatic increase in Part 1 Crime statistics may be due to more

rigorous LAPD data collection methodologies, but is consistent with the increasing incidence of homelessness documented in June of 2019 detailed below (*Id.*).

Overall, in 2018, the LAPD reported 6,671 instances in total where a homeless individual was a Part 1 Crime victim and/or suspect, among the 31,285 estimated homeless individuals throughout the City (*Id.*). This means that in 2018 there was approximately one Part 1 Crime per every 4.68 homeless individuals in the City. By comparison, for the same year LAPD reported 129,549 total Part 1 Crimes Citywide among an estimated population of 4,054,400 City residents, or approximately one Part 1 crime per every 31.29 City residents. Accordingly, the rate of Part 1 crimes among homeless individuals in 2018 was approximately seven times higher than the rate among the City population as a whole (*Id.*).

On October 4, 2018 and again on February 6, 2019, the Los Angeles County Department of Public Health identified an outbreak of endemic flea-borne typhus in downtown Los Angeles among persons experiencing homelessness. On September 19, 2017, the Los Angeles County Department of Public Health declared a Hepatitis A virus outbreak among persons who are homeless and/or use illicit drugs in the County. Likewise, a January 2018 report from the Los Angeles County Department of Mental Health reported that data from the Los Angeles County Medical Examiner-Corner's showed that a significant number of deaths in the homeless population were caused by treatable conditions such as arteriosclerotic cardiovascular disease, pneumonia, diabetes, cancer, cirrhosis, severe bacterial infections and other conditions (Choi, 2019). As noted more recently by the Board of Supervisors for the County of Los Angeles on October 29, 2019:

Mortality rates for people experiencing homelessness are much higher than those for the general population, have risen in the County over the past five years, and are expected to increase again for 2019. A recent analysis by the County's Department of Public Health on mortality rates and causes of death among people experiencing homelessness shed critical light on this issue and provided sobering data on recent trends. The overall mortality rate, which accounts for increases in the total homeless population over the 6-year period from 2013 to 2018, increased each year from 1,382 per 100,000 to 1,875 deaths per 100,000, with the total number of deaths among people experiencing homelessness increasing each year from 536 in 2013 to 1,047 in 2018. The leading causes of death included coronary heart disease (22%) and unintentional drug and alcohol overdose (21%), indicating that there are opportunities for interventions to prevent premature deaths (Supervisor Ridley-Thomas, Supervisor Solis, 2019) (Department of Public Health, 2019).

These significant adverse health impacts suffered by the homeless in the City and County of Los Angeles are consistent with the impacts identified by a well-established body of expert social science studies that document the significant adverse health and welfare impacts experienced by homeless persons in the United States and in other countries, which the homeless in the City and County experience as well. Some of that research has documented the following impacts upon homeless persons:

Mortality Rates. A study of the mortality rates of sheltered homeless people in New York City between 1987 and 1994 documented that homeless men died at a rate more than twice that of other residents of New York, and that homeless women died at a rate more than 3.7 times greater than other New York residents (Barrow, Susan M., PhD, Daniel B. Herman, DSW, Pilar Cordova, BA, and Elmer L. Struening, PhD, 1999). A study conducted between 1985 and 1988 in Philadelphia found that the mortality rate among homeless persons in Philadelphia was nearly four times greater than for the general population (Hibbs, Jonathan R., MD, et. al., 1994). A review of five years of data between 2000 and 2005 in Glasgow, Scotland found that homelessness is, itself, is an independent risk factor for death, distinct from other specific

causes (Morrison, 2009).

Access to Healthcare. A 2003 nationwide survey of homeless persons documented that homeless adults reported substantial unmet needs for multiple types of health care (Baggett, Travis P., MD, MPH, James J. O'Connell, MD, Daniel E. Singer, MD, and Nancy A. Rigotti, MD, , 2010). The report found 73 percent of the respondents reported at least one unmet health need, including an inability to obtain needed medical or surgical care (32%), prescription medications (36%), mental health care (21%), eyeglasses (41%), and dental care (41%) (*Id.*).

AIDs Impacts. A study of San Francisco residents diagnosed with AIDS from 1996 through 2006 and reported to the San Francisco Department of Public Health demonstrated that homeless persons with HIV/AIDS have greater morbidity and mortality, more hospitalizations, less use of antiretroviral therapy, and worse medication adherence than HIV infected persons who are stably housed (Schwarcz, Sandra K, Ling C Hsu,, Eric Vittinghoff, Annie Vu, Joshua D Bamberger and Mitchell H Katz, 2009).

Cancer Impacts. A study of 28,000 current and formerly homeless individuals in Boston documented that homeless men saw a significantly higher cancer incident rate than expected compared to the general Massachusetts general population, and that homeless women and men experienced significantly higher cancer mortality rates than the Massachusetts general population (Baggett, Travis P et al., 2015).

B. Unexpected and Unabated Dramatic Surge in Homelessness

A 2017 Rand Corporation study reported the County of Los Angeles as having the highest rate in the United States of unsheltered individuals who experience homelessness (Hunter, Sarah B., Melody Harvey, Brian Briscoombe, and Matthew Cefalu, 2017). The impacts of homelessness upon the homeless and upon the community, in terms of the danger to or loss of life, property, health and burden on public services is exacerbated in the City due the very size of the City's homeless population. The homeless shelter crisis and the rise in homelessness are the type of emergency situations that led the State to adopt AB 1197, an urgency statute addressing homelessness that was deemed necessary for the immediate preservation of the public peace, health, or safety and for the critical necessity to address the shelter and homeless crisis within the City of Los Angeles.

The City of Los Angeles (the City) City Council declared a homeless shelter crisis pursuant to Government Code Section 8698, et seq. on April 17, 2018 (The Honorable M. Bonin & M. O'Farrell , 2019), which is currently in effect (The Honorable M. Bonin & M. Harris-Dawson, 2019). Following significant investment of resources by both the County and City, the 2018 Homeless Count showed progress in reducing homelessness, documenting a 5.5 percent overall decrease in the number of persons experiencing homelessness in LA County (LAHSA, 2020).

Table 1 - 2018 Homeless Count Data Summary presents the data revealed by the 2018 Homeless Count concerning the City of Los Angeles, as documented in the 2018 Data Summary in Table 1 (LAHSA, 2020).

Table 1 2018 Homeless Count Data Summary		
	Number of Individuals	Change from 2017
Sheltered Homeless	8,398	6% Decrease
Unsheltered Homeless	22,887	5.3% Decrease
Total Homeless Persons	31,285	5.5% Decrease

Despite these efforts and the initial progress shown in 2018, the revised 2019 Homeless Count, released in July 22, 2020, unexpectedly documented a dramatic increase in the number of individuals experiencing both sheltered and unsheltered homelessness in (LAHSA, 2020) *Table 2 - 2019 Homeless Count Data Summary* presents the data revealed by the 2019 Homeless Count concerning the City of Los Angeles, as documented in the 2019 Data Summary as shown in Table 2 (LAHSA, 2020):

Table 2 2019 Homeless Count Data Summary (Revised 07/20/2020)		
	Number of Individuals	Change from 2018
Sheltered Homeless	8,944	6.5% Increase
Unsheltered Homeless	26,606	16.2% Increase
Total Homeless Persons	35,550	13.7% Increase

LAHSA recently published its 2020 Homeless Count, released in July 20, 2020, which shows that the homelessness emergency in the City of Los Angeles continues unabated. The documented number of individuals experiencing both sheltered and unsheltered homelessness dramatically increased yet again, as shown in *Table 3 - 2020 Homeless Count Data Summary*. (LAHSA, 2020)

Table 3		
2020 Homeless Count Data Summary		
	Number of Individuals	Change from 2019
Sheltered Homeless	12,438	39% Increase
Unsheltered Homeless	28,852	8.4% Increase
Total Homeless Persons	41,290	16.1 % increase

C. Emergency Related to COVID-19 Pandemic Impacting Homeless Community

In addition to the crisis of growing homelessness, the COVID-19 pandemic is impacting homeless persons. On March 4, 2020, the Governor proclaimed a State of Emergency for the State of California (Governor Gavin Newsom, 2020), and the Mayor of the City of Los Angeles declared a local emergency related to the threat of the COVID-19 pandemic affecting the local population (Mayor Eric Garcetti, 2020). The City is facing an unprecedented emergency at the current time due to the sudden occurrence of the COVID-19 pandemic, and this emergency is particularly concerning for the imminent threat it poses to the City’s homeless population.

On March 11, 2020, the State Department of Health issued guidance for protecting homeless Californians from COVID-19, which noted the following:

“We know that individuals experiencing homelessness are at greater risk of having an untreated and often serious health condition. This vulnerable population also has a higher risk of developing severe illness due to COVID-19,” said Dr. Mark Ghaly, Secretary of the California Health and Human Services Agency. “It is important that we act now to protect this population and the compassionate people who serve them.” (Corey Egel, 2020)

The homeless often live unsheltered, unprotected from the elements and in close contact and proximity to other individuals in the homeless community. As noted above, the homeless population is substantially more prone to underlying health conditions. The State Department of Public Health additionally states that populations “with compromised immune systems, and people with certain underlying health conditions like heart disease, lung disease and diabetes, for example, seem to be at greater risk of serious illness.” (California Dept. of Public Health, 2020) Thus, exposure to COVID-19 in the homeless population is an imminent concern for the damage it will cause on these susceptible individuals.

On March 12, 2020, the Governor’s Executive Order No. N-25-20 noted the “need to secure numerous facilities to accommodate quarantine, isolation, or medical treatment of individuals testing positive for or exposed to COVID-19.” (Governor Gavin Newsom, 2020) On March 18, 2020, the Governor issued Executive Order No. N-32-20 (Governor Gavin Newsom, 2020), which further noted imminent impacts to the homeless, as follows:

[T]he emergency of COVID-19 necessitates a more focused approach, including emergency protective measures to bring unsheltered Californians safely indoors, expand shelter capacity, maintain health and sanitation standards and institute medically indicated interventions, and add new isolation and quarantine capacity

to California's shelter and housing inventory to slow the spread of the pandemic....

The Governor has stated that “[p]eople experiencing homelessness are among the most vulnerable to the spread of COVID-19,” and “California is deploying massive resources to get these vulnerable residents safely into shelter, removing regulatory barriers and securing trailers and hotels to provide immediate housing options for those most at risk. Helping these residents is critical to protecting public health, flattening the curve and slowing the spread of COVID-19.” (California Governor, Press Release (Governor Gavin Newsom, 2020)

On March 19, 2020, the Governor issued a stay-at-home order directing residents to stay home or at their place of residence (Governor Gavin Newsom, 2020). It noted “in a short period of time, COVID-19 has rapidly spread throughout California, necessitating updated and more stringent guidance from federal, state, and local public health officials.” (Governor Gavin Newsom, 2020). Similar local Safer-at-Home orders followed (County of Los Angeles Public Health Department, 2020) (Mayor Eric Garcetti, 2020). The City's Safer at Home order particularly noted the following:

City of Los Angeles officials and contracted partners responsible for homelessness outreach shall make every reasonable effort to persuade such residents to accept, if offered, temporary housing or shelter, as the Health Officer of the County of Los Angeles recommends that sheltering individuals will assist in reducing the spread of the virus and will protect the individual from potential exposure by allowing the individual access to sanitation tools.

(Mayor Eric Garcetti, 2020)

In the United States District Court Central District of California case of *LA Alliance for Human Rights Et Al. vs. the City of Los Angeles, Et al.* Case No. CV 20-02291 DOC (The Honorable Judge David O. Carter, 2020), concerning homelessness, the Court entered a May 2020 injunction that had ordered the City of Los Angeles in partnership with the County of Los Angeles, to protect a particular subset of persons experiencing homelessness, finding they are exposed to severely heightened public health risks as a result of where they live. (The Honorable Judge David O. Carter, 2020) Although the Court vacated that order on June 18, 2020, in favor of a homeless shelter agreement between the City and County, the Court retained its right to re-impose the May 2020 injunction. The Court's May 2020 findings concerning the emergency situation faced by homeless persons, therefore, is relevant to understanding the emergency situation.

The Injunction found that the combined risks of health impacts from living near freeways and the on-going Covid-19 pandemic constitute an emergency. The Court found that it is unreasonably dangerous for humans to live in areas which have deleterious health impacts and can shorten a homeless person's life expectancy by decades. These locations near freeways, for example, could be contaminated with lead or other carcinogenic substances and also increase the danger that a homeless person will be struck by a vehicle or injured in the event of an earthquake or crash. Camps in these locations can also burden the general public—for example, by posing potential hazards to passing motorists, or by making sidewalks and other rights-of-way inaccessible to individuals with disabilities.

The Court further found that providing housing for persons experiencing homelessness will help stop the spread of COVID-19 persons experiencing homelessness and will also help reduce the likelihood that the disease will spread throughout the greater Los Angeles community

Taken together, the unexpected and dramatic increase in homelessness in the City and County of Los Angeles identified first in 2019, continues unabated in 2020, which is now exacerbated by

the COVID-19 pandemic posing a critical emergency situation in the City of Los Angeles. This situation presents documented dangers to health, life, property and a burden on public resources which presents an emergency as defined by CEQA as explained below. Furthermore, the State has created two additional CEQA exemptions applicable in the City of Los Angeles concerning homelessness and homeless shelters.

II. THE PROJECT IS EXEMPT FROM FURTHER CEQA REVIEW

A. The Project is Exempt Pursuant to the Emergency CEQA Statutory Exemption (PRC Section 21080(b)(4))

Public Resources Code section 21080(b)(4) provides that CEQA does not apply, to “specific actions necessary to prevent or mitigate an emergency.” Public Resources Code section 21060.3 defines Emergency as, “a sudden, unexpected occurrence, involving a clear and imminent danger, demanding immediate action to prevent or mitigate loss of, or damage to, life, health, property, or essential public services.” Section 21060.3 further provides that Emergency, “includes such occurrences as fire, flood, earthquake, or other soil or geologic movements, as well as such occurrences as riot, accident, or sabotage.”

Finally, 14 California Code of Regulations (Governor's Office of Planning and Research, 2018) Section 15269, “Emergency Projects,” provides examples of emergency projects exempt from the requirements of CEQA, including the following:

(c) Specific actions necessary to prevent or mitigate an emergency. This does not include long-term projects undertaken for the purpose of preventing or mitigating a situation that has a low probability of occurrence in the short-term, but this exclusion does not apply

(i) if the anticipated period of time to conduct an environmental review of such a long-term project would create a risk to public health, safety or welfare, or

(ii) if activities (such as fire or catastrophic risk mitigation or modifications to improve facility integrity) are proposed for existing facilities in response to an emergency at a similar existing facility.

The project is a specific action necessary to prevent or mitigate an emergency – the conditions arising from a sudden and unexpected dramatic rise in the City’s already dangerously large homeless population, now adversely impacted by the COVID-19 pandemic for all of the reasons set forth above in Part II (Project History). The Project, therefore is exempt from CEQA environmental review pursuant to Section 21080(b)(4).

Project Site Plan

CHANDLER BLVD AND NORTH HOLLYWOOD

PALLET PROJECT

PROJECT SCOPE:
NEW HOMELESS SHELTER PROJECT TO PROVIDE BEDS WITHIN PALLET STRUCTURES.

PROPOSED SHELTER PALLET COUNT:

- 32 STANDARD - DOUBLE BEDS
- 02 ADA - SINGLE BEDS
- 01 STAFF USE
- 01 STORAGE - PALLET 100
- ONE HYGIENE TRAILER (1:15 FOR TOILETS AND SHOWERS)
- 3 PARKING STALLS

TOTAL PALLET: 36
TOTAL BEDS: 66

NOTES:

1. THE SITE WILL NEED GRADING TO LEVEL PALLET PLACEMENT.
2. ASPHALT RECOMMENDED TO MITIGATE EROSION CAUSED BY RAIN.
3. TEMPORARY SITE LIGHTING NEEDED, NO (E) LIGHT POLES ON NORTH SIDE OF CHANDLER BLVD.
4. TWO CURB CUTS NEEDED FOR VEHICULAR ACCESS.
5. THE EXISTING TREE TO BE REMOVED
6. FIRE ACCESS REQUIRED - TO BE ASPHALT
7. MOBILE HYGIENE UNIT NEEDS SEWER/WATER CONNECTION.
8. PALLET STRUCTURES REQUIRE OVERHEAD POWER SERVICE TO FEED PALLET STRUCTURES
9. PROVIDE AN RV HOOK UP STATION WITH 5' X 5' CONCRETE PAD AND TRAFFIC BOLLARDS. (SEWER/ WATER/ ELECTRIC CONNECTIONS REQUIRED).
10. THIS SITE IS IN A METHANE BUFFER ZONE.
11. PROVIDE A NEW FIRE HYDRANT ON A 2'X2' CONCRETE PAD, PER CITY REQUIREMENTS.

KEYNOTE LEGEND

- A. (N) PERIMETER FENCING WITH PRIVACY SLATS
- B. PALLET SHELTER 64, TYP.
- C. HYGIENE TRAILER - SHOWERS, TOILETS, LAVATORIES, SEE SHEET A300
- D. (N) VEHICULAR DOUBLE GATE, TYP. FOR 2
- E. GROUND TO BE PAINTED
- F. DUMPSTER - CITY PROVIDED
- G. FIRE HYDRANT
- H. (N) EGRESS GATE WITH PANIC HARDWARE
- I. (N) OUTDOOR SEATING WITH PICNIC TABLES - ULINE METAL PICNIC TABLES - 6' RECTANGLE OR 46" ROUND AND MOBILE UMBRELLAS WITH ACRYLIC CANVAS - SUNBRELLA FABRIC
- J. PROVIDE SITE AND EGRESS POST LIGHTS, TYP A NEEDED PER LIGHT STUDY
- K. ASPHALT PAVING
- L. HYGIENE UNIT STATION. REFER TO SHEET P001. GC TO VERIFY LOCATION
- M. HOT BOX AREA. POWER FROM ADJACENT CONTAINER.
- N. STORAGE PALLET 100
- O. FOOD DISTRIBUTION AREA
- P. FIRE LANE - ACCESS ROAD, VERIFY REQUIRED RADIUS
- Q. STAFF PARKING - 3 SPACES
- R. EXISTING SEWER MANHOLE - CONTRACTOR TO VERIFY LOCATION
- S. EXISTING STORM DRAIN - CONTRACTOR TO VERIFY LOCATION
- T. FOOD PALLET STORAGE
- U. 8X20 ADMIN CONTAINER WITH LIGHTING, POWER, WATER AND SEWER CONNECTION, REFER TO SHEET A400, GC TO VERIFY REQUIREMENTS FOR SLAB DUE TO METHANE BUFFER AREA
- V. CONCRETE OR WOOD PLANTERS, PAINT TO FINISH
- W. 6'X6' GUARD BOOTH WITH HEATING AND LIGHTING.
- X. 2 NEW CURB CUTS WILL BE REQUIRED, WILL REQUIRE A PERMIT.
- Y. K-RAILS FOR SIDEWALK
- Z. PET AREA WITH CHAIN LINK FENCING AND DOUBLE PEDESTRIAN GATE
- AA. SHADE UMBRELLAS AT EATING AREAS AND THROUGHOUT TO PROVIDE SHADE
- BB. GARDEN AREA WITH SEATING
- CC. DECOMPOSED GRANITE - SEE PAVING PLA
- DD. EXISTING TREE TO BE REMOVED - REFER TO DEMO PLAN
- EE. NEW FIRE HYDRANT REQUIRED, POUR A 2'X2' PAD PER CITY REQUIREMENTS

DECLARATION OF LOCAL EMERGENCY

WHEREAS, Section 231(i) of the Los Angeles City Charter and Ch. 3, Section 8.27 of the Los Angeles Administrative Code provide that the Mayor of the City of Los Angeles has the authority to declare the existence of a local emergency as a result of any occurrence which, by reason of its magnitude, is or is likely to become beyond the control of the normal services, personnel, equipment, and facilities of the regularly constituted branches and departments of City government; and

WHEREAS, the City of Los Angeles has at any given time approximately 41,980 people experiencing homelessness Citywide; and

WHEREAS, the number of unhoused people in the City of Los Angeles has increased dramatically in recent years, nearly doubling in the past decade, with the number of unhoused families increasing by 238 percent since 2007; and

WHEREAS, the City of Los Angeles represents 9.6 percent of the State of California's population but 25 percent of the State's unsheltered population, and the City represents only 1.2 percent of the total United States population but 7.2 percent of the United States population of people experiencing homelessness; and

WHEREAS, as a percentage of its population, the number of unsheltered people in the City of Los Angeles is approximately 18 times higher than the number in New York City and 14 times higher than the number in Chicago; and

WHEREAS, there are more people currently experiencing homelessness in the City of Los Angeles than were displaced by Hurricane Harvey in Houston (30,000) or the 1994 Northridge Earthquake (20,000); and

WHEREAS, homelessness has disproportionately impacted Black, Indigenous and Immigrant Angelenos. Black people comprise only 8 percent of the population of the City of Los Angeles but, in the most recent homelessness count, accounted for 33 percent or more of people experiencing homelessness; and

WHEREAS, homelessness has increased dramatically and disproportionately among Hispanic and Latino Angelenos during the COVID-19 pandemic. The share of the population of people experiencing homelessness who are Hispanic or Latino increased by 30 percent between 2020 and 2022 and now constitute 42 percent of unhoused individuals. Black and Brown Angelenos comprise 75 percent of people experiencing homelessness; and

WHEREAS, the homelessness crisis has had unacceptable consequences for Angelenos, including a significant death toll that has rapidly increased since the start of the COVID-19 pandemic. The Los Angeles County Department of Public Health has reported an average of over 5 deaths per day of unhoused persons as of March 2021, a 200 percent increase in the death rate of persons experiencing homelessness over the past decade and a 56 percent increase over just one year prior; and

WHEREAS, women now comprise about a third of people experiencing homelessness and at least 60 percent of those women have experienced violence, and more than a third of LGBTQ+ women experiencing homelessness have experienced sexual assault; and

WHEREAS, a disproportionate share of youth experiencing homeless identify as LGBTQ+ and lack adequate access to resources; and

WHEREAS, the murder rate for people experiencing homeless is at the highest recorded levels, and increased by 47 percent in 2021 alone; and

WHEREAS, severe overcrowding in Los Angeles has also led to increased deaths from COVID-19. In neighborhoods with 40 percent overcrowding as compared to a national average of 3 percent, residents are 11 times more likely to die because of COVID-19; and

WHEREAS, shelter and housing is particularly important during these coming winter months when people experiencing homelessness in the City are likely to face heightened exposure and dangers from living outdoors, and heightened dangers from the combination of COVID-19, flu outbreak and respiratory syncytial virus (RSV). It is projected that the City will face an acute shortage of winter homeless shelters through March 2023, with fewer than half the number of shelter sites available as in the winter of 2021-2022 and nearly two-thirds fewer shelter beds; and

WHEREAS, the City's eviction moratorium, which has protected many Angelenos from falling into homelessness, ends concurrently with the end of the City's State of Local Emergency regarding the COVID-19 pandemic on February 1, 2023; and

WHEREAS, the State of California's COVID-19 State of Emergency, which has provided resources to keep many Angelenos from falling into homelessness, ends in February of 2023, thus requiring immediate action in order to create replacement and additional housing and shelter, and in order to support the necessary infrastructure and laws required to protect and provide that shelter and housing; and

WHEREAS, people experiencing homelessness suffer disproportionately from mental and physical health ailments, the treatment of which has strained the City's ability to provide appropriate shelter and housing and which require assistance from the County

Health Department to provide the necessary public services. Specifically, it is estimated that 47 percent of unsheltered people in the City of Los Angeles are affected by a health condition, 46 percent are affected by substance abuse, 34 percent are affected by a serious mental illness, 29 percent are affected by physical disabilities, 17 percent are affected by post-traumatic stress disorder, 7 percent are affected by developmental disabilities, and 6 percent are affected by traumatic brain injuries. Recent studies differ on the exact percentages but dramatic increases over time are prevalent in all of the data. The prevalence of extreme need significantly stress the City's public services; and

WHEREAS, notwithstanding that the State of California has enacted a CARE Court to address the crisis of untreated mental illness, the beds and necessary access to acute and subacute care is in development and steps must be taken in the interim to provide increased access to care; and

WHEREAS, the homelessness crisis has strained the City's public safety resources. Among other things, occurrences of fires related to homelessness have nearly tripled between 2018 and 2021, averaging 24 fires a day in the first quarter of 2021, and now constitute a majority of all fires to which the Los Angeles Fire Department responds; and

WHEREAS, paramedic calls to address the crisis on our streets and in our other public spaces are increasing at alarming rates and unhoused residents are 19 times more likely to require an emergency room transport by paramedics than housed residents; and

WHEREAS, the homelessness crisis confronting Los Angeles has grown both incrementally and exponentially, leading to death, illness, and deplorable living conditions even worse than those that created emergencies due to persistent and worsening conditions from prison overcrowding, deterioration in water quality, or fire risk due to climate change; and

WHEREAS, the conditions in December 2022 are even more dire than when Mayor Bradley declared a local emergency due to the upcoming winter weather and its effects on the people experiencing homelessness in 1987; and

WHEREAS, the displacement of the number of people living on the streets of the City of Los Angeles today is a daily recurring emergency, empowering the Mayor to declare a state of emergency, no less than if the emergency was caused by an earthquake, fire, or flood; and

WHEREAS, the City's ability to mobilize local resources, coordinate interagency response, accelerate procurement of housing units, use mutual aid, and seek assistance and potential reimbursement by the State and Federal governments will be critical to successfully responding to this homelessness crisis; and

WHEREAS, during the pendency of the existence of a local emergency, the Los Angeles City Council shall retain its full authority to consider a variety of City ordinances to codify the measures necessary to address this homelessness crisis; and

WHEREAS, during the COVID-19 pandemic the City Council created the COVID-19 Homelessness Roadmap and committed the funding and resources needed to produce 6700 housing options in 18 months; and

WHEREAS, the City currently has 14,475 interim housing beds and the City Council continues to prioritize the building of interim and permanent supporting housing and yet need outpaces demand; and

WHEREAS, the City projects it will soon have a total of 12,908 supportive and affordable units, of which 3,861 have been completed already, 5,171 are currently under construction, and 3,876 are in pre-development; and

WHEREAS, notwithstanding that Council has been and is acting with urgency, including implementing a roadmap to house thousands of Angelenos and building an unprecedented number of supportive housing units and shelters, an emergency declaration is necessary to mobilize resources, save lives, and provide for the public health, welfare, and safety of all; and

WHEREAS, the City of Los Angeles has responded to the rapid increase in its homeless population with unprecedented investments into homelessness solutions, including a nearly \$1.2 billion commitment in the 2022-2023 City budget for the construction of thousands of units of supportive housing, the expansion of bridge housing, and the hiring of professionals to address the homelessness crisis and, notwithstanding these efforts, the number of those experiencing homelessness in the City continues to increase and outstrip the resources and services that the City has provided; and

WHEREAS, the magnitude of loss of life, the persistent and disproportionate impact of the COVID-19 pandemic, and the persistent discriminatory impacts of a lack of housing warrant and necessitate that I declare the existence of a local emergency; and

WHEREAS, the benefits of this emergency declaration, coupled with past and future actions by the Los Angeles City Council to address the homelessness crisis, will help ensure that this local emergency will be of a temporary nature;

NOW, THEREFORE, I hereby declare the existence of a local emergency and direct all Divisions of the Emergency Operations Organization (EOO) and all other City Departments to take necessary steps for the protection of life, health and safety in the City of Los Angeles.

I REQUEST, that the City Council adopt resolutions pursuant to the Los Angeles Administrative Code Sections 10.1.1, 10.2.1, 10.5(a)(8), and 10.5.5 to expedite the procurement and contracting process for materials, equipment, and services necessary to respond rapidly to the homelessness crisis.

I DIRECT that, as Director of the EOO, I shall coordinate Citywide planning and response with respect to unsheltered individuals in conjunction with the City Administrative Officer, Los Angeles Homeless Services Authority, Los Angeles City Housing Department, Los Angeles City Planning Department and any and all necessary departments and agencies.

I FURTHER DIRECT that the City coordinate its efforts to address this declared emergency with the County of Los Angeles, the State of California, and the federal government.

I FURTHER DIRECT, that the continuing state of emergency shall be regularly evaluated, in coordination with City Council, by reference to key performance indicators of progress in addressing the emergency, including, but not limited to:

- Decrease in the number and size of encampments;
- Regulatory relief from other jurisdictions and within Los Angeles City agencies to create flexibility to address the crisis;
- Relaxation in the restraints that limit the ability of the City's proprietary departments to create flexibility to address the crisis;
- Increased housing placements;
- Increased starts on new affordable housing options;
- An increase in temporary and permanent housing units;
- Increased outside aid through access to mental health and substance use beds;
- A decrease in the number of persons being evicted from existing housing units;
- A decrease in the number of persons falling into homelessness.

I FURTHER DIRECT that this Emergency Declaration sunset in six months subject to being renewed. The setting of a specific time frame allows for actions to be taken to make permanent, necessary structural changes.

I FURTHER DIRECT that all relevant City departments and agencies compile and deliver to the Mayor information about the specific and necessary resources and support that the

City should request from Los Angeles County, the State of California and the Federal government to address this crisis.

I THEREFORE DIRECT that the Declaration of Local Emergency shall take effect immediately and that notice shall be given of said Declaration through the most feasible means.

Karen Bass, MAYOR

KAREN BASS
MAYOR

DECLARATION OF LOCAL HOUSING AND HOMELESSNESS EMERGENCY

WHEREAS, Section 231(i) of the Los Angeles City Charter and Section 8.33 of the Los Angeles Administrative Code provide that the Mayor of the City of Los Angeles has the authority to declare the existence of a local emergency due to the existence of a critical shortage of local affordable housing and/or an emergency on homelessness; and

WHEREAS, on December 12, 2022, I declared the existence of a local emergency on homelessness with a sunset of six months subject to renewal. The City Council renewed the declaration of emergency and established a new sunset date of July 9, 2023; and

WHEREAS, although significant progress has been made since I declared the homelessness emergency in December of last year, the City still faces a critical shortage of local affordable housing, and the number of individuals unhoused and unsheltered remain far too high; and

WHEREAS, the City still finds itself in an emergency because most if not all of the concerns articulated in the recitals in my December declaration are true today; and

WHEREAS, the unhoused population in the City is greater than two times the total number of interim beds, as established in the annual Homeless Inventory Count submitted to the federal Department of Housing and Urban Development. This alone is sufficient to authorize my declaration of this local housing and homelessness emergency under Section 8.33 of the Los Angeles Administrative Code; and

WHEREAS, the City's housing supply is projected to be at least 40 percent below its annual housing production goals as established in the Housing Element approved by the State Department of Housing and Community Development and reported in the City Planning Department's quarterly Housing Production Report. This is yet another independent basis for me to declare this local housing and homelessness emergency under Section 8.33 of the Los Angeles Administrative Code; and

WHEREAS, declaring this emergency will enable the City to continue to mobilize local resources, coordinate inter-agency response, accelerate procurement of housing units, use mutual aid, and seek assistance and potential reimbursement by the State and

Federal governments - all critical to the ongoing efforts to respond forcefully and successfully to this housing and homelessness crisis; and

WHEREAS, because current conditions remain consistent with those in existence during the pendency of the local emergency I declared in December of last year, the Los Angeles City Council retains its full authority to consider a variety of City ordinances to codify the measures necessary to address this homelessness crisis; and

WHEREAS, although the City has been and is acting with urgency, including implementing a roadmap to house thousands of Angelenos and building an unprecedented number of supportive housing units and shelters, this emergency declaration is necessary to continue to mobilize resources, save lives, and provide for the public health, welfare, and safety of all;

NOW, THEREFORE, I thereby declare the existence of a local emergency on affordable housing and homelessness and direct all City Departments to take necessary steps for the protection of life, health and safety in the City of Los Angeles. The Executive Directives issued by me in response to the original declaration of emergency and its renewal shall remain in full force and effect through the pendency of this declaration.

I DIRECT that, as authorized under Section 8.33 of the Los Angeles Administrative Code, I shall coordinate citywide planning and respond with respect to unsheltered or unhoused individuals in conjunction with the City Administrative Office, Los Angeles Homeless Services Authority, Los Angeles City Housing Department, Los Angeles City Planning Department, and all other necessary departments and agencies. I shall also coordinate the City's efforts to address this declared emergency with the County of Los Angeles, the State of California, and the federal government.

I FURTHER DIRECT, that the continuing state of emergency shall be regularly evaluated, in coordination with City Council, by reference to key performance indicators of progress in addressing the emergency, including, but not limited to:

- Decrease in the number and size of encampments;
- Regulatory relief from other jurisdictions and within Los Angeles City agencies to create flexibility to address the crisis;
- Relaxation in the restraints that limit the ability of the City's proprietary departments to create flexibility to address the crisis;
- Increased housing placements;
- Increased starts on new affordable housing options;
- An increase in temporary and permanent housing units;
- Increased outside aid through access to mental health and substance use beds;
- A decrease in the number of persons being evicted from existing housing units;
- A decrease in the number of persons falling into homelessness.

I FURTHER DIRECT that all relevant City departments and agencies continue to cooperate by compiling and delivering to the Mayor information about the specific and necessary resources and support that the City should request from Los Angeles County, the State of California and the Federal government to address this crisis.

I THEREFORE DIRECT that the Declaration of Local Emergency shall take effect immediately with respect to a critical shortage of local affordable housing and the homelessness crisis, and that notice shall be given of this Declaration through the most feasible means.

KAREN BASS

CITY OF LOS ANGELES
INTER-DEPARTMENTAL CORRESPONDENCE

0220-05151-0490

Date: October 25, 2023

To: Jimmy Kim, General Manager
Department of Recreation And Parks

Attn: Darryl Ford, Superintendent of Planning and Construction
Department of Recreation And Parks

From: Edwin Gipson II, Assistant City Administrative Officer
Office of the City Administrative Officer

Subject: **REQUEST TO EXTEND TINY HOME VILLAGE AT 11471 CHANDLER BLVD.**

Digitally signed by
Edwin Gipson II
Date: 2023.10.25
10:34:02 -07'00'

On June 16, 2020, the City of Los angeles entered into the COVID-19 Homelessness Roadmap agreement (Roadmap), through which 6,000 new open and occupiable beds must be created and maintained by the City. On September 18, 2020, the site owned by the Department of Recreation and Parks (RAP) located at 11471 Chandler Blvd. in Council District 2 was approved by the Council and Mayor for a Tiny Home Village, which provides 75 beds in the Roadmap.

The Mayor declared a local emergency on December 12, 2022 (C.F. 22-1545), which aims to reduce the number of people experiencing homelessness citywide (approximately 41,980). In an effort to support the local emergency, the Homelessness Group within the Office of the City Administrative Officer requests to extend this site for one year and respectfully requests RAP to take any necessary actions or receive necessary approvals for this extension. The site information is as follows:

11471 Chandler Blvd.
Service Provider: Hope the Mission
Bed Count: 75
Structure type: Pallet (Tiny Home Village)
Expiration date: January 21, 2024
Extension request: 1 year

Thank you for your assistance with this matter. If you have any questions about this request, please contact Kendra Leal, Senior Management Analyst II, at (213) 744-7354 or Annabelle Gonzales, Senior Administrative Analyst I, at (213) 978-2752.

cc: Meghan Luera, Senior Management Analyst II, RAP
