★ Our Philosophy ★

Our Philosophy in working with early childhood is to provide a caring and loving environment as well as an atmosphere conducive to learning. We believe that each child is to be treated as an individual and given the opportunity to experience and grow at their own pace. As recreation professionals, it is our intent to enhance each child’s ability to create and explore through arts, science, sports, cooking, community awareness, multiculturalism, special guests, and field trips on their surrounding community.

Through our program we hope to build each child's social skills, sense of security, motivation, responsibility, self-esteem, and self-confidence. We strive to be instrumental in providing the opportunities needed in continuing to unlock the doors to our children’s futures.
