Shotokan KARATE ~ Instructor Sensei Ray

Shotokan Karate remains firmly rooted in a strong martial arts tradition, emphasizing lifetime training for a healthy mind and body, rather than strictly as a sport. Through Shotokan Karate, Children and Adults will realize greater potential and expand the limits of that individual’s physical and mental capabilities. The important thing to know about traditional Shotokan Karate is that while training occurs in a group setting, the individual experience is driven by the effort and ability of the participant. This allows for students of different physical abilities to train on the floor at the same time. This is an on going program with Rank Tests and special events held throughout the year.
